A work of unparalleled candor and splendorous beauty, *The Lyrics* celebrates the creative life and the musical genius of Paul McCartney through 154 of his most meaningful songs. From his early Liverpool days, through the historic decade of The Beatles, to Wings and his long solo career, *The Lyrics* pairs the definitive texts of 154 Paul McCartney songs with first-person commentaries on his life and music. Spanning two alphabetically arranged volumes, these commentaries reveal how the songs came to be and the people who inspired them: his devoted parents, Mary and Jim; his songwriting partner, John Lennon; his “Golden

Earth Girl,” Linda Eastman; his wife, Nancy McCartney; and even Queen Elizabeth, among many others. Here are the origins of “Let It Be,” “Lovely Rita,” “Yesterday,” and “Mull of Kintyre,” as well as McCartney’s literary influences, including Shakespeare, Lewis Carroll, and Alan Durband, his high-school English teacher. With images from McCartney’s personal archives—handwritten texts, paintings, and photographs, hundreds previously unseen—*The Lyrics*, spanning sixty-four years, becomes the definitive literary and visual record of one of the greatest songwriters of all time.

You are perhaps nervous about going into a pro co-writing session because you fear your ideas aren't worth bringing into the writing room. You know you have so many great titles waiting to be written but haven't found a way of systematically developing them into well-crafted lyrics. I enjoyed building a firm foundation of knowledge about the craft from the songwriting programs at Berklee Music School and other sources, I discovered Song Maps afterwards, from my experience as a professional songwriter, writing either on my own or in the writing rooms of Nashville. Having been signed as a staff songwriter at Universal Music Publishing in Nashville, being nominated and winning awards for my songs including Grammys, Doves and hymn-writing awards, and after spending many years studying thousands of techniques and developing them in my own songwriting and in the writing room, I've had the privilege of teaching the material in this book to hundreds of songwriters and seeing a step change in their writing. I have been blessed to watch them find their authentic voice in writing ideas to their full potential, helping them achieve their dream to move from writing flat 2D lyrics to fabulous High Definition full-color 3D lyrics. As you assimilate Song Maps into your writing workflow, your songwriting will shift away from tentative, self-conscious, inhibited writing to strong, bold, intentional and vulnerable writing that does full justice to your original ideas, ultimately allowing you to make the impact you deserve as a songwriter. If you implement the simple, easy-to-understand concepts in this book, I promise you your songs will be better crafted than 90% of the songs you hear on the radio. ### **Lyric Writing Exercises for Finding Your Voice** Independently Published

While there are technically no limits when it comes to song writing, here are 20 "unofficial" rules that songwriters employ to make songs more engaging and memorable. And it is not just commercial songwriters. These rules are used in many of the popular and GRAMMY-winning songs you hear today. In this course, Clifford Goldmach reveals tips from the

professional songwriter's rule-book, starting with 10 rules about lyrics: staying conversational, using concrete details, and keeping your rhyme schemes the same in similar sections. He then discusses five rules for melodies, including why you should keep melodies simple, unique, and accessible, and how to make them more memorable with repetition. The last five rules tackle familiar song structures and tips for shortening sections of songs. Topics include:

- Writing lyrics that are conversational and natural
- Making every line count
- Putting your song's hook at the end of a chorus
- Creating simple and unique melodies
- Keeping song intros short and longer verses at the beginning of a song

Song writing is a great skill and in fact, it can also make you money. If you are a singer, learning how to write your own songs can also be impressive and can also put you into an advantage over other singers. Keep in mind that there are a lot of people out there who knows how to sing well but it helps a lot that you don't only just sing but write your own songs as well. Uniqueness and originality are important in writing songs. If you blend in to what is already in the market, you may eventually be forgotten. Among the song writing tips that might help you make your own songs is to make it stand out, make it original and make it something that people want to listen to. Know your target audience as well. This will help you find an easier market and fan base for your songs. Of course, not all songs can please all people but see to it that it can please a larger crowd.
