*Writing Spaces* University of Chicago Press  
Informative, insightful, and accessible, this book is designed to enhance the capacity of graduate and undergraduate students, as well as early career scholars, to write for academic purposes. Fang describes key genres of academic writing, common rhetorical moves associated with each genre, essential skills needed to write the genres, and linguistic resources and strategies that are functional and effective for performing these moves and skills. Fang's functional linguistic approach to academic writing enables readers to do so much more than write grammatically well-formed sentences. It leverages writing as a process of designing meaning to position language choices as the central focus, illuminating how language is a creative resource for presenting information, developing argument, embedding perspectives, engaging audience, and structuring text across genres and disciplines. Covering reading responses, book reviews, literature reviews, argumentative essays, empirical research articles, grant proposals, and more, this text is an all-in-one resource for building a successful career in academic writing and scholarly publishing. From fear of radioactive fallout during the Cold War to anxieties about global warming today, images have helped to produce what Dunaway calls "ecological citizenship," telling us that "we are all to blame." Dunaway heightens our awareness of how depictions of environmental catastrophes are constructed, manipulated, and fought over" -- Publisher information.

How to Read Like a Writer Hampton Press (NJ)

The wise and witty guide to researching and writing a thesis, by the bestselling author of The Name of the Rose—now published in English for the first time. Learn the art of the thesis from a giant of Italian literature and philosophy—from choosing a topic to organizing a work schedule to writing the final draft. By the time Umberto Eco published his best-selling novel The Name of the Rose, he was one of Italy ' s most celebrated intellectuals, a distinguished academic, and the author of influential works on semiotics. Some years before that, Eco published a little book for his students, in which he offered useful advice on all the steps involved in researching and writing a thesis. Since then, it has been translated into 17 languages—and is now for the first time presented in English. Eco ' s approach is anything but dry and academic. He not only offers practical advice but also considers larger questions about the value of the thesis-writing exercise in

six different parts: • The Definition and Purpose of a Thesis • Choosing the Topic • Conducting the Research • The Work Plan and the Index Cards • Writing the Thesis • The Final Draft Eco advises students how to avoid “ thesis neurosis ” and he answers the important question “ Must You Read Books? ” He reminds students “ You are not Proust ” and “ Write everything that comes into your head, but only in the first draft. ” Of course, there was no Internet in 1977, but Eco ' s index card research system offers important lessons about critical thinking and information curating for students of today who may be burdened by Big Data. Irreverent and often hilarious, How to Write a Thesis is unlike any other writing manual and belongs on the bookshelves of students, teachers, writers, and Eco fans everywhere.
