‘Anthony Trollope knew more about women than any other novelist of his time’ Joanne Trollope Trollope observes the romances of two controversial heroines in the first of his Palliser novels. Alice Vavasor should be married to the sensible, kindly John Grey. But despite what her respectable relations might think, Alice cannot quite reconcile herself to this fate. Once upon a time she was engaged to her wild cousin George, and now he stands in need of her money and, perhaps too, her good influence. Meanwhile Alice's friend Lady Glencora has married the rising politician Plantagenet Palliser, but is still

pursued by Burgoyne Fitzgerald, the handsome rascal she loves. In this hugely compelling novel, Trollope shows the two women struggling to reconcile heart, mind and moral code whilst enduring the stifling scrutiny of their contemporaries. WITH AN INTRODUCTION BY D. J. TAYLOR

A practical and engaging guide
to the art of teaching history
Well-grounded in scholarly
literature and practical
experience, *Teaching History*
offers an instructors' guide for

developing and teaching classroom history. Written in the author's engaging (and often humorous) style, the book discusses the challenges teachers encounter, explores effective teaching strategies, and offers insight for managing burgeoning technologies. William Caferro presents an assessment of the current debates on the study of history in a broad historical context and evaluates the changing role of the discipline in our increasingly globalized world. Teaching History reveals that the valuable skills of teaching are highly transferable. It	stresses the importance of careful organization as well as the advantages of combining research agendas with teaching agendas. Inspired by the Scholarship of Teaching and Learning movement, the book encourages careful reflection on teaching methods and stresses the importance of applying various approaches to promote active learning. Drawing on the author's experience as an instructor at the high school and university levels, Teaching History: Contains an authoritative and humorous look at the profession and the strategies and techniques of	teaching history Incorporates a review of the current teaching practice in terms of previous methods, examining nineteenth and twentieth century debates and strategies Includes a discussion of the use of technology in the history classroom, from the advent of course management (Blackboard) systems to today's digital resources Covers techniques for teaching the history of any nation not only American history Written for graduate and undergraduate students of history teaching and methods, historiography, history skills, and education,

Teaching History is a comprehensive book that explores the strategies, challenges, and changes that have occurred in the profession. College Writing For Dummies Cengage Learning This is the first book-length study of bilingual, international, and immigrant students in English writing courses that attempts to fully embed their writing experiences within the broader frame of their personal histories, the human context of their development, and the

disciplinary contexts of their majors. It addresses the questions: How useful are L2 writing courses for the students who are required to take them? What do the students carry with them from these courses to their other disciplinary courses across the curriculum? What happens to these students after they leave ESL, English, or writing classes? Drawing on data from a 5-year longitudinal study of four university students for whom English was not their strongest/primary language,

it captures their literacy experiences throughout their undergraduate careers. The intensive case studies answer some questions and raise others about these students' academic development as it entwined with their social experiences and identity formation and with the ideological context of studying at a US university in the 1990s.

A Manual for Writers of Dissertations Greenwood Publishing Group

One teenager in a skirt. One teenager with a lighter. One moment that changes both of their lives forever. If it weren't for the 57 bus, Sasha and Richard never would have met. Both were high

school students from Oakland, California, one of the most diverse cities in the country, but they inhabited different worlds. Sasha, a white teen, lived in the middle-class foothills and attended a small private school. Richard, a black teen, lived in the crime-plagued flatlands and attended a large public one. Each day, their paths overlapped for a mere eight minutes. But one afternoon on the bus ride home from school, a single reckless act left Sasha severely burned, and Richard charged with two hate crimes and facing life imprisonment. The 57 Bus is Dashka Slater's true account of the case that garnered international attention and thrust both teenagers into the spotlight.

Undergraduates in a Second Language Cherry Lake
All over Europe, universities are moving over to English as the language of instruction. This

development has been accelerated by global forces, and its pedagogical consequences have yet to be fully explored. This book examines this situation from the point of view of students and teachers, focusing particularly on the acquisition of English language writing skills in European university contexts. It takes an academic approach, and is firmly grounded in the bibliography on teaching academic writing to second language users in English-speaking countries,

as well as in the bibliography on teaching English in Europe in higher education. In addition to providing sound pedagogical guidelines, it also brings together the most recent critiques of current practice and an overview of the innovative approaches devised in the last ten years. This is a book for all those who are involved in the changing European university scenario: English teachers and writing instructors, lecturers faced with the challenge of

teaching their courses in English, university administrators and decision-makers.

Introduction to Academic Writing Harvard University Press

It's easy for people to write about their feelings in a journal. It's more difficult, however, to convert personal experiences into stories worthy of publication—fiction, non-fiction, or poetry. Filled with engaging exercises, *Write from Life* guides writers in identifying story-worthy material and transforming their raw material into finished pieces, through conquering fears associated with personal

exposure, determining a story's focus, shaping the material into a cohesive whole, and editing and revising as needed. Writers working in any form will find this book invaluable for supplying them with the inspiration and practical instruction they need to get their experiences and emotions into print. In addition, they will learn to: Tap into difficult, guarded parts of their lives to tell the stories they desire Write emotionally intense material Decide which literary form is right for their stories Create the illusion of real speech with effective dialogue Tell their stories with authority Develop effective beginnings, middles, and ends Share their work with others and deal with reactions courageously Files' friendly, encouraging advice makes it a pleasure for writers to write the stories they are most passionate about. In an age when publishing can mean pushing a button on Facebook, Twitter, or a blog, there is an enduring urge to send stories out into the world. In an atmosphere of misinformation and lies that social media and the ease of publishing may encourage, we especially crave truth. The time to start telling it is now—so many aspiring writers have truths worth sharing and stories begging to be told! Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

In *Writing Anthropology*, fifty-two anthropologists reflect on scholarly writing as both craft and commitment. These short essays cover a wide range of territory, from ethnography, genre, and the politics of writing to affect, storytelling, authorship, and scholarly responsibility. Anthropological writing is more than just communicating findings: anthropologists write to tell stories that matter, to be accountable to the communities in which they do their research, and to share new insights about the world in ways that might change it for the better. The contributors offer insights into the beauty and the function of language and the joys and pains

of writing while giving encouragement to stay at it—to keep writing as the most important way to not only improve one’s writing but to also honor the stories and lessons learned through research. Throughout, they share new thoughts, prompts, and agitations for writing that will stimulate conversations that cut across the humanities. Contributors.
