Based on Mr Hudson's identity, the book is
featuring destinations for gays, but not
necessarily gay destinations. It is about
travelling in style for everyone who is looking
for something different and special - no
matter if men or women, travelling solo or as
a couple. Mr Hudson Explores shows that
every part of a trip is an incredible experience.
The core content of the book will consist of
20 cities in the Northern Hemisphere and
showcases the very best the destination has to
offer. Each guide will give a general
introduction to the city and, if applicable, its

relevance for the gay community. It showcases
various locations on culture and art, the most
inspiring museum to visit, traditional and
upcoming food places, best shopping
experiences, music and nightlife: Where to go
out, which bars do have the best drinks, and
clubs you can have the most fun at the city's
best parties and concerts. Depending on the
location, day trips and activities can be
included. Luxury accommodations and places
to stay complete the range. The book will not
just give descriptions of the places but also
background information, telling the story of
the owner, history or anecdotes.

Sir William Temple, diplomat, statesman, and writer, retired to his garden in the 1680s and wrote what has become one of the key texts, not only of gardening, but also of the English aesthetic. It was he who introduced the idea of the charm of irregularity, and who gave it the allegedly Chinese name sharawadgi. The English style of landscape gardening can be traced in a direct line to this essay, which has not been in print for over 95 years.
