Hello, I have an HP G62-234DX Notebook and it has recently started acting up with my wireless network. All of my other devices have no issues with the wireless network but my notebook does. Starting today, I have had to reset my wireless modem to make the computer connect to the wireless network. ...

---

Exclusive that comes with Windows 7 Home Premium and Microsoft Office Starter 2010. The HP G62-234DX features a 2.26GHz Intel Core i3 processor, a 15.6-inch display, 4GB of DDR3 RAM, a 250GB hard drive, and a multi-format disk drive with LightScribe technology which allows for labels to be printed directly on disks. All of these features come together to form a powerful entertainment notebook that would suit the needs of most college students.

Manuals | HP® Customer Support  
You do not need an HP part number processor. All the 620M processors are the same. If the processor is in the Service Guide it should work on the same

motherboard. The G62 Manual is very complex with Model 1.0, 1.1, 1.2, etc. The 620M is only for Model 1.0. Be sure you have the same, but the i3-330M is also apparently only used on Model 1.0.
