73 Amateur Radio No Starch Press Trying to get your message heard? Build an iconic brand? Welcome to the battlefield. The story wars are all around us. They are the struggle to be heard in a world of media noise and clamor. Today, most brand messages and mass appeals for causes are drowned out before they even reach us. But a few consistently break through the din, using the only tool that has ever moved minds and changed behavior—great stories. With insights from mythology, advertising history, evolutionary biology, and psychology, viral storyteller and advertising expert Jonah Sachs takes readers into a fascinating world of seemingly insurmountable challenges and enormous opportunity. You'll discover how: • Social media tools are driving a return to the oral tradition, in which stories that matter rise above the fray • Marketers have become today's mythmakers, providing society with explanation, meaning, and ritual • Memorable stories based on timeless themes build legions of eager evangelists • Marketers and audiences can work together to create deeper meaning and stronger partnerships in building a better world • Brands like Old Spice, The Story of Stuff, Nike, the Tea Party, and Occupy Wall Street created and sustained massive viral buzz Winning the Story Wars is a call to arms for business communicators to cast aside broken traditions and join a revolution to build the iconic brands of the future. It puts marketers in the role of heroes with a chance to

transform not just their craft but the enterprises they represent. After all, success in the story wars doesn't come just from telling great stories, but from learning to live them. *PCs* John Wiley & Sons For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide. More than 100,000 entrepreneurs rely on this book for detailed, step-by-step instructions on building successful, scalable, profitable startups. The National Science Foundation pays hundreds of startup teams each year to follow the process outlined in the book, and it's taught at Stanford, Berkeley, Columbia and more than 100 other leading universities worldwide. Why? The Startup Owner's Manual guides you, step-by-step, as you put the Customer Development process to work. This method was created by renowned Silicon Valley startup expert Steve Blank, co-creator with Eric Ries of the "Lean Startup" movement and tested and refined by him for more than a decade. This 608-page how-to guide includes over 100 charts, graphs, and diagrams, plus 77 valuable checklists that guide you as you drive your company toward profitability. It will help you: • Avoid the 9 deadly sins that destroy startups' chances for success • Use the Customer Development method to bring your business idea to life • Incorporate the Business Model Canvas as the organizing principle for startup hypotheses • Identify your customers and determine how to "get, keep and grow" customers profitably • Compute how you'll drive your startup to repeatable, scalable profits. The Startup Owner's Manual was originally published by K&S Ranch Publishing Inc. and is now available from Wiley. The cover, design, and content are the same as the prior release and should not be considered a new or updated product.

The second edition of this best-selling Python book (over 500,000 copies sold!) uses Python 3 to teach even the technically uninclined how to

write programs that do in minutes what would take hours to do by hand. There is no prior programming experience required and the book is loved by liberal arts majors and geeks alike. If you've ever spent hours renaming files or updating hundreds of spreadsheet cells, you know how tedious tasks like these can be. But what if you could have your computer do them for you? In this fully revised second edition of the best-selling classic Automate the Boring Stuff with Python, you'll learn how to use Python to write programs that do in minutes what would take you hours to do by hand--no prior programming experience required. You'll learn the basics of Python and explore Python's rich library of modules for performing specific tasks, like scraping data off websites, reading PDF and Word documents, and automating clicking and typing tasks. The second edition of this international fan favorite includes a brand-new chapter on input validation, as well as tutorials on automating Gmail and Google Sheets, plus tips on automatically updating CSV files. You'll learn how to create programs that effortlessly perform useful feats of automation to: • Search for text in a file or across multiple files • Create, update, move, and rename files and folders • Search the Web and download online content • Update and

format data in Excel spreadsheets of any size • Split, merge, watermark, and encrypt PDFs • Send email responses and text notifications • Fill out online forms Step-by-step instructions walk you through each program, and updated practice projects at the end of each chapter challenge you to improve those programs and use your newfound skills to automate similar tasks. Don't spend your time doing work a well-trained monkey could do. Even if you've never written a line of code, you can make your computer do the grunt work. Learn how in Automate the Boring Stuff with Python, 2nd Edition.
