In the nineteenth century, the  
Irish population was halved.  
The Great Shame is Thomas  
Keneally's astonishing work of  
non-fiction which traces the  
three causes of this depletion:  
the famine, the emigrations,

and the transportations to  
Australia. Based on unique  
research among little-used  
sources, this masterly book  
traces eighty years of Irish  
history, told through the  
intimate lens of political  
prisoners - some of them  
Keneally's ancestors who  
served time as convicts in  
Australia. Beginning with Hugh  
Larkin, a twenty-four-year-old  
'Ribbonman' transported for  
life in 1834, The Great Shame  
tells of the Ireland these  
prisoners came from and the  
Australia they encountered. It  
brings us close to Irish women  
such as Esther, wife of Larkin,  
and the future Lady Wilde,  
mother of Oscar, friend and  
collaborator of notable Irish  
prisoners. But we also  
encounter the 'Female Factory'  
and the Irish convict women  
who married humble Protestant  
criminals, and we learn of the  
often desperate survival  
methods of 'transportation-  
widowed' women left in  
Ireland. Throughout the  
nineteenth century, Australian  
and American organisations  
participated in the

extraordinary escapes or  
attempted escapes from  
Australia of some of the world-  
famous Irish politicals. Among  
these was William Smith  
O'Brien, nobleman, leader of  
an uprising at the height of the  
Irish Famine, who became,  
from solitary confinement in  
Van Dieman's Land, the  
Mandela of his age. Thomas  
Francis Meagher's spectacular  
escape led to a glittering  
American career as orator,  
Union general, and tragic  
Governor of Montana. John  
Mitchel, Meagher's friend in  
Van Dieman exile, became a  
Confederate newspaper man,  
gave two of his sons to the  
Confederate cause, was  
imprisoned with Jefferson  
Davis, but emerged to  
reinfiltre Ireland and become  
member for Tipperary.  
Through many such lives,  
famous and obscure, we see not  
only the daily experience of  
famine sufferers and Irish  
activists, but also the  
astonishing history of the Irish  
diaspora: to Saint Lawrence, to  
New York, to the high plains of  
Montana and the bush towns of

The line began forming after eight o'clock. Sal, short and heavy-set, kept everyone busy. Neat, in a white shirt and sports jacket, with his grey fedora cocked to the side, his crooked grin made you smile. Without warning the heavy door would swing open and the waiters would come outside to join him. They were dressed in pajamas or prison garb, with hats and horns, and were there to warm up the crowd. Some in line expected this, others were shocked. The pink polka dot building should have been a warning. Complete strangers in line became chummy, exchanging stories they had heard; toilet seat covers to serve drinks on, microphones in the ladies room, toilet paper for napkins. Most had brought their friends there to be roasted. The line of people varied in age. They all dressed casually because they'd heard you could get a pie in the face or a squirt in the eye. The club's routines were blue in color, but harmless. If you were lucky you might see a "Balls for the Queen" or a "Singing beer." The price was always right for a

good time and Warm Beer and Lousy Food was the place to be.

This ground-breaking book provides fascinating insights into the fast-emerging body of research that explores the relationship between sport, theology and disability within a social justice framework. In the shadow of two major sport-faith events that fore-fronted the theology of disability sport, the Vatican's international conference—Sport at the Service of Humanity and the Inaugural Global Congress on Sports and Christianity York St John

University, UK, at which Dr Brian Brock led a thematic strand on the topic—this book provides a foundation for further research and practice. This text is a timely and important synthesis of ideas that have emerged in two previously distinct areas of research: (i) 'disability sport' and (ii) the 'theology of disability'. Examples of subjects addressed in this text include: elite physical disability sport—Paralympics; intellectual disability sport—Special Olympics; equestrian sport; church, sport and disability, and; theologies of embodiment, competition and mercy. This book, written by leaders in their respective fields, begins a critical conversation on

these topics, and many others, for both researchers and practitioners. The chapters originally published in the *Journal of Disability and Religion and Quest*. [Waiting for Summer's Return](#) iUniverse

All alone on the Kansas prairie, Summer Steadman has few options. With her husband and children lost to illness, she has no desire to continue on farther west to where she and her husband planned to build their future. Instead, she seeks employment in a small Mennonite community in order to be near the graves of her family. Widower Peter Ollenburger, the local gristmill owner, needs someone to teach his young son. When he hears of a "learned woman" in town, he believes she is the answer to his prayers. He soon

discovers, however, that helping this outsider may have troublesome consequences. There is little this father will not do for his son, but as the boy begins to look at Summer as more than a teacher, Peter must make a choice. Does he marry this woman to give his son a new mother, or does he marry only for love? Will Summer's broken heart ever be able to love again?

Women suffer from headaches far more than men. According to the World Health Organization, migraine is one of the most disabling medical conditions. The understanding of the pathophysiology of migraine has changed dramatically over the past decade, leading to more rational and targeted treatments. Since most migraineurs are young women, use of contraception, management of headaches with menstruation, pregnancy, lactation, and menopause are

important issues addressed in this text. Headaches are often inherited, and, as such, the book also discusses genetic issues, particularly relevant in this era of customized medicine. The hormonal management of transgenders is important as many will experience severe headaches during their transitions. Comorbidities, including psychiatric syndromes and strokes, are also presented in detail. This text will be of interest to all practitioners who manage women with headaches.

In the fall of 1930, David Packard left his hometown of Pueblo, Colorado, to enroll at Stanford University, where he befriended another freshman, Bill Hewlett. After graduation, Hewlett and Packard decided to throw their lots in together. They tossed a coin to

decide whose name should go first on the notice of incorporation, then cast about in search of products to sell. Today, the one-car garage in Palo Alto that housed their first workshop is a California historic landmark: the birthplace of Silicon Valley. And Hewlett-Packard has produced thousands of innovative products for millions of customers throughout the world. Their little company employs 98,400 people and boasts constantly increasing sales that reached \$25 billion in 1994. While there are many successful companies, there is only one Hewlett-Packard, because from the very beginning, Hewlett and Packard had a way of doing things that was contrary to the prevailing management strategies. In defining the objectives for their company, Packard and Hewlett wanted more than profits, revenue growth and a constant stream of new, happy customers. Hewlett-

Packard's success owes a great deal to many factors, including openness to change, an unrelenting will to win, the virtue of sustained hard work and a company-wide commitment to community involvement. As a result, HP now is universally acclaimed as the world's most admired technology company; its wildly successful approach to business has been immortalized as The HP Way. In this book, David Packard tells the simple yet extraordinary story of his life's work and of the truly exceptional company that he and Bill Hewlett started in a garage 55 years ago.
