YOU CAN'T MAKE THIS

STUFF UP! Here is a hilarious
collection that catches real-life
knuckleheads in outrageous
acts of brazen stupidity, giving
new meaning to that famous
four-letter word: "DUH"! *

The Oregon resident who was
waxing his 1984 Pontiac--and
somehow managed to shove
the antenna up his nose . . .

GRANDMOTHER OF EIGHT
MAKES HOLE IN ONE * The
Atlanta Braves pitcher who
was treated for five-inch-long
welts after he tried to iron his

polo shirt while wearing it . . .

MINERS REFUSE TO WORK
AFTER DEATH * The inmate
at a Chesapeake Correctional
Facility who filed a five million
dollar lawsuit against himself . . .

. DRUNK GETS NINE
MONTHS IN VIOLIN CASE *
The woman who couldn't stand
the discomfort of having a
callus on her right foot, so she
blew off her big toe with a
shotgun . . . Radio personality
John "Kato" Machay's lively
compilation of news stories,
headlines, and courtroom gaffes
proves hands down that truth is
dumber than fiction!

REMEMBER: To err may be

human, but to laugh out loud is divine.

Accelerate sales and improve customer experience Every day, most working professionals entrust their most important messages to a form of communication that doesn't build trust, provide differentiation, or communicate clearly enough. It's easy to point to the sheer volume of emails, text messages,

voicemails, and even social messaging as the problem that reduces our reply rates and diminishes our effectiveness. But the faceless nature of that communication is also to blame. Rehumanize Your Business explains how to dramatically improve relationships and results with your customers, prospects, employees, and recruits by adding personal videos to emails, text messages, and social messages. It explains the what, why, and how

behind this new movement toward simple, authentic videos—and when to replace some of your plain, typed-out communication with webcam and smartphone recordings. • Restore face-to-face communication for clarity and connection • Add a personal, human touch to your emails and other messages • Meet people who 've sent thousands of videos • Learn to implement your own video habit in an easy, time-saving way • Boost

your replies,
appointments, conversion,
referrals, and results
dramatically If you ' re
ready to influence, teach,
sell, or serve in a more
personal way,
Rehumanize Your
Business is your guide.

Chemistry of Global

Plants series has been prepared for university students of chemistry and ethnobotany and for those wishing to broaden their knowledge. It opens a window on a vast region of Asia not well described for its flora and provides new and fresh insights on: Significant plants, some endangered Traditional and modern applications of extracts The biochemical and pharmacological properties of extracts Contains over 150 full colour figures The

significance of the Silk Road is being revived today through immense investment by China and other eastern countries in major schemes of transport infrastructure. Publications of the National Bureau of Standards ... Catalog Primedia Business Directories & Books Arguably one of the most highly regarded and widely used enterprise level operating systems available today is the Ubuntu 20.04 distribution. Not only is it

considered to be among the most stable and reliable operating systems, it is also backed by the considerable resources and technical skills of Canonical, Ltd. Ubuntu 20.04 Essentials is designed to provide detailed information on the installation, use and administration of the Ubuntu 20.04 distribution. For beginners, the book covers topics such as operating system installation, the basics of the GNOME desktop environment, configuring

email and web servers and management, KVM installing packages and system updates. Additional installation topics such as dual booting with Microsoft Windows are also covered, together with all important security topics such as configuring a firewall and user and group administration. For the experienced user, topics such as remote desktop access, the Cockpit web interface, logical volume management (LVM), disk partitioning, swap

virtualization, Secure Shell (SSH), Linux Containers and file sharing using both Samba and NFS are covered in detail to provide a thorough overview of this enterprise class operating system.

Due to the emergence of IFRS as the required convention for reporting to stock exchanges in the European Union and other

important markets, accountants must gain a strong understanding of these standards. "Intermediate Accounting" integrates this new information throughout the chapters so they'll learn how to apply the new global accounting standards. Global examples are presented to clearly show how the information is utilised in the field. The use of various currencies is also explored, which is critical for accountants to know in today's global businesses environment. **Rehumanize Your Business Addison-**

Wesley

Written by a nationally-recognized authority in the field of assessment, this manual provides an introduction to basic issues in the development and administration of the MMPI-2 and MMPI-2-RF as well as a step-by-step procedure for interpreting the test. It discusses the use of the MMPI-2 with special groups and reviews the use and

interpretation of critical items, special scales, and short forms.

Summaries of empirical research are included in each chapter to illustrate the bases for interpretations.

The aim of this book is to reduce the risks of medical treatment and enhance the safety of patients in all areas of healthcare. The first section discusses human error, the incidence of harm to patients, and the development or risk management. Chapters in the second section discuss the reduction of risk in clinical practice in key medical specialties.

The third section discusses features of the healthcare systems that are essential to safe practice, such as communication of risk to patients, the design of equipment, supervision and training, and effective teamwork. The fourth section describes how to put risk management into practice, including the effective and sensitive handling of complaints and claims, the care of injured patients and the staff involved, and the reporting, investigation

and analysis of serious incidents.

This book presents selected contributions to the 16th International Conference on Global Research and Education

Inter-Academia 2017 hosted by Alexandru Ioan Cuza University of Iași, Romania from 25 to 28 September 2017. It is the third volume in the series, following the editions from 2015 and 2016. Fundamental and applied research in natural sciences have led to crucial developments in the ongoing 4th global industrial revolution, in the course of which information technology has become deeply

embedded in industrial management, research and innovation – and just as deeply in education and everyday life. Materials science and nanotechnology, plasma and solid state physics, photonics, electrical and electronic engineering, robotics and metrology, signal processing, e-learning, intelligent and soft computing have long since been central research priorities for the Inter-Academia

Community (I-AC) – a body comprising 14 universities and research institutes from Japan and Central/East-European countries that agreed, in 2002, to coordinate their research and education programs so as to better address today's challenges. The book is intended for use in academic, government, and industrial R&D departments as a reference tool in research and

technology education.
The 42 peer-reviewed papers were written by more than 119 leading scientists from 14 countries, most of them affiliated to the I-AC. Popular Photography

This is the most current textbook in teaching the basic concepts of abstract algebra. The author finds that there are many students who just memorise a theorem without having the ability to apply it to a given problem. Therefore, this is a hands-on manual, where many typical algebraic problems are provided for students to be able to apply the

theorems and to actually practice the methods they have learned. Each chapter begins with a statement of a major result in Group and Ring Theory, followed by problems and solutions.
Contents: Tools and Major Results of Groups; Problems in Group Theory; Tools and Major Results of Ring Theory; Problems in Ring Theory; Index.
