The Drift Sequence and Subglacial Topography in Parts of the Ouse and Nene Basin Legare Street Press

The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital

copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. Delve into what it was like to live during the eighteenth century by reading the first-hand accounts of everyday people, including city dwellers and farmers, businessmen and bankers, artisans and merchants, artists and their patrons, politicians and their constituents. Original texts make the American, French, and Industrial revolutions vividly contemporary. + + + + The below data was compiled from various identification fields in the bibliographic record of this title. Is Any Sick Among You? What would you do during a medical emergency when no doctor is available? Knowledge of natural herbal remedies

could help. Couched in scripture, the author begins by tracing medical history from herbs to drugs and back to herbs. Then, because the book's purpose is to teach readers how to attain and then maintain "immaculate health" naturally, the author discusses mild food diets, correct food combinations and how they aid bodily functions. She lists common disorders and herbal remedies for each, discusses the need for vitamins, and lists which foods contain which vitamins naturally. Delving into sound and color therapy, she reveals how peace of mind affects one's health. Finally, the author introduces Iridology - the science of reading the iris of the eye to determine the body's health. Through research, observation and experience, the author presents a wise, humorous, personal look at natural health.
