PC Mag John Wiley & Sons Time for an upgrade! The fifth edition of *The Complete Idiot's Guide® to Computer Basics* places the reader in charge of the computer, rather than the other way around, and places the focus on software troubleshooting rather than hardware technobabble. The reader wants to do something practical with his or her computer—this book shows them how. • Covers basic office

programs and how to manage photo, video, and music files • Advice on safe web-surfing, including coverage of newsgroups, message boards, and mailing lists • New green computing initiatives that help protect the environment • Maintenance and upgrading information

Although the Windows XP Media Center is designed as a consumer product, it is actually more complex than the

conventional computer and home entertainment devices it replaces. That's why this book--written in the fun, friendly Absolute Beginner's style--is required reading for buyers of these multitasking, media-centric machines. It is written in an easy-to-understand tone that won't confuse readers with lots of technical jargon.
