From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work

on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party

The importance of people in organizations has been growing in the organizational environment over the last decades. Digital transformation, artificial intelligence, and sustainability have already reinforced the role of people as a

differentiating element for the success and survival of organizations. These phenomena alone are already challenging for people. There is a consensus that the world of work as we knew before the pandemic will not return. Human resource management (HRM) practices must prepare organizations for the future of work. The Handbook of Research on Challenges for Human Resource Management in the COVID-19 Era analyzes state-of-the-art HRM in a digital transformation context and investigates the factors that promote more learning and development dynamics in organizational contexts. professionals, specialists, students and educators of higher education, researchers, and academicians.
