Have you ever been in a training and marveled at how quickly the time flew by?

Genuinely enjoyed a meeting you were expecting to dread? Learned something powerful about a topic you thought wouldn't engage you? Experienced an intimate, vulnerable, transformative moment with a group of total strangers? Then you've witnessed the magic of facilitation. Like all magic tricks - though they seem to defy reason when you're spectating for the first time - once the secrets of facilitation are unveiled to you, you'll look back with a bland obviousness. Of course

---

that's how it's done. In this book, co-authors and social justice facilitators Sam Killermann and Meg Bolger teach you how to perform the favorite tricks they keep up their sleeve. It's the learning they've accumulated from thousands of hours of facilitating, debriefing, challenging, and failing; it's the lessons from their mentors, channeled through their experience; it's the magician's secrets, revealed to the public, because it's about time folks have the privilege of looking behind

the curtain of facilitation and thinking of course that's how it's done. This book is highlights 11 key concepts every facilitator should know, that most facilitators don't even know they should know. They are sometimes-tiny things that show up huge in facilitation. It's a book for facilitators of all stripes, goals, backgrounds, and settings - and the digestible, enjoyable, actionable lessons would benefit anyone who is responsible for engaging a group of people in learning. A Practitioner's Guide to the

European Convention on Human Rights Penguin  
This book examines the interpretation and application of the right to freedom of religion and belief of new minorities formed by recent migration by the European Court of Human Rights (ECtHR) and the United Nations Human Rights Committee (HRC). New minorities are increasingly confronted with restrictions of their religious practices and have addressed their rights claims both to the ECtHR and the HRC through their individual complaint procedures, which resulted in several contradicting decisions. Based on a quantitative and qualitative empirical analysis of the relevant case law, focusing in

---

particular on the reasoning adopted by the two bodies, this book finds that the HRC in its practice offers a significantly higher level of protection to new minorities than the ECtHR. Such divergence may be explained by various institutional and conceptual differences, of which the concept of the margin of appreciation is the most influential. It is contended that the extensive use of the concept of the margin of appreciation by the ECtHR in the case law regarding new minorities' right to freedom of religion and belief, and the absence of such concept in the HRC's case law, could be explained by different understandings of the role of an international human rights body in conflicts between the

majority and minorities. This book argues that such divergence could be mitigated with various tools, such as the inclusion of cross-references to the case law of other relevant bodies as well as to instruments specifically established for the protection of minorities.

The book will be of interest to academics, researchers and practitioners in the area of international human rights law, international public law in general and law and religion.

The United Nations Human Rights Council was created

in 2006 to replace the UN Commission on Human Rights. The Council's mandate and founding principles demonstrate that one of the main aims, at its creation, was for the Council to overcome the Commission's flaws. Despite the need to avoid repeating its predecessor's failings, the Council's form, nature and many of its roles and functions are strikingly similar to those of the Commission. This book examines the creation and formative years of the United Nations Human Rights

---

Council and assesses the extent to which the Council has fulfilled its mandate. International law and theories of international relations are used to examine the Council and its functions. Council sessions, procedures and mechanisms are analysed in-depth, with particular consideration given to whether the Council has become politicised to the same extent as the Commission. Whilst remaining aware of the key differences in their functions, Rosa Freedman compares the work of the Council to

that of treaty-based human rights bodies. The author draws on observations from her attendance at Council proceedings in order to offer a unique account of how the body works in practice. The United Nations Human Rights Council will be of great interest to students and scholars of human rights law and international relations, as well as lawyers, NGOs and relevant government agencies. **The Mercifully Brief, Real World Guide to Raising Thousands (if Not**

**Tens of Thousands) of Dollars with Email** New Society Publishers  
The mesmerizing story of Hillary Clinton's political rebirth, based on eyewitness accounts from deep inside her inner circle  
Hillary Clinton's surprising defeat in the 2008 Democratic primary brought her to the nadir of her political career,

---

vanquished by a much younger opponent whose message of change and cutting-edge tech team ran circles around her stodgy campaign. And yet, six years later, she has reemerged as an even more powerful and influential figure, a formidable stateswoman and the presumed front-runner for the 2016 Democratic

presidential nomination, marking one of the great political comebacks in history. The story of Hillary's phoenixlike rise is at the heart of HRC, a riveting political biography that journeys into the heart of "Hillaryland" to discover a brilliant strategist at work. Masterfully unfolded by

Politico's Jonathan Allen and The Hill's Amie Parnes from more than two hundred top-access interviews with Hillary's intimates, colleagues, supporters, and enemies, HRC portrays a seasoned operator who negotiates political and diplomatic worlds with equal savvy. Loathed by the

---

Obama team in the wake of the primary, Hillary worked to become the president's greatest ally, their fates intertwined in the work of reestablishing America on the world stage. HRC puts readers in the room with Hillary during the most intense and pivotal moments of this era, as she mulls

the president-elect's offer to join the administration, pulls the strings to build a coalition for his war against Libya, and scrambles to deal with the fallout from the terrible events in Benghazi—all while keeping one eye focused on 2016. HRC offers a rare look inside the merciless Clinton

political machine, as Bill Clinton handled the messy business of avenging Hillary's primary loss while she tried to remain above the partisan fray. Exploring her friendships and alliances with Robert Gates, David Petraeus, Leon Panetta, Joe Biden, and the president himself, Allen and Parnes show how Hillary

fundamentally transformed the State Department through the force of her celebrity and her unparalleled knowledge of how power works in Washington. Filled with deep reporting and immersive storytelling, this remarkable portrait of the most important female politician in American history is

an essential inside look at the woman who may be our next president. *The Advocate* Springer Publishing Company An overview of PC communications. Data communication history.
