Riley Appleton loves to hate me. It's my fault the hate is there in the first place. She needed somewhere to direct her anger, and I volunteered to be the target. Being adored is boring. I wanted something different. Each jab that falls from her pretty mouth is a challenge, and the more we fight, the hotter we burn. But soon, this game of ours goes too far. She needs to be reminded who really rules this relationship. Our feud is a joke-but in the end, I'll be the only one laughing. This is a standalone in the Fallen Royals series. It is recommended to read the Wicked trilogy prior, but not necessary.

This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts.

Following the 1979 revolution, the Iranian government set out to Islamize society. Muslim piety had to be visible, in personal appearance and in action. Iranians were told to pray, fast, and attend mosques to be true Muslims. The revolution turned questions of what it means to be a true Muslim into a matter of public debate, taken up widely outside the exclusive realm of male clerics and intellectuals. Say What Your Longing Heart Desires offers an elegant

ethnography of these debates among a group of educated, middle-class women whose voices are often muted in studies of Islam. Niloofar Haeri follows them in their daily lives as they engage with the classical poetry of Rumi, Hafez, and Saadi, illuminating a long-standing mutual inspiration between prayer and poetry. She recounts how different forms of prayer may transform into dialogues with God, and, in turn, Haeri illuminates the ways in which believers draw on prayer and ritual acts as the emotional and intellectual material through which they think, deliberate, and debate.

This paper recounts Chile's experience with capital account policies since the 1990s. We present how two external shocks were confronted under very different macroeconomic and capital account frameworks. We show that during the 1997-98 Asian-LTCM-Russia crisis, a closed capital account and relatively rigid exchange rate severely constrained the monetary policy response to the shock, aggravating the fall in domestic demand. During the 2008-09 crisis, a full-fledged inflation targeting framework allowed the authorities to implement a significant countercyclical response. We argue that domestic stability considerations lay behind the policy regime switch toward capital account liberalization from 1999 onwards.

This interdisciplinary collection provides a set of innovative and inventive approaches to the use of video as a research method. Building on the development of visual methods across the social sciences, it highlights a range of possibilities for making and working with video data. The collection showcases different video methods, including video diaries, video go-alongs, time-lapse video, mobile devices, multi-angle video recording, video ethnography, and ethnographic documentary. Each method is presented through a case study, showing how it can be used in practice. The authors offer pragmatic advice and discuss practical issues, including equipment, techniques and skills, analysis, and presentation. They also show how video methods can be used in a range of different contexts – at train stations, on bicycles, in schools, outdoors, and in museums – to investigate worlds that are visible, audible, tangible, and in motion. In doing so, they illuminate the theoretical possibilities that video methods offer for researching the body, identity, everyday life, affect, time, and space.

The new edition of *Gene Control* has been updated to include significant advances in the roles of the epigenome and regulatory RNAs in gene regulation. The chapter structure remains the same: the first part consists of pairs of chapters that explain the mechanisms involved and how they regulate gene expression, and the second part deals with specific biological processes (including diseases) and how they are controlled by genes. Coverage of methodology has been strengthened by the inclusion more explanation and diagrams. The significant revision and updating will allow *Gene Control* to continue to be of value to students, scientists and clinicians interested in the topic of gene control.
