This two-volume set (CCIS 1229 and CCIS 1230) constitutes the refereed proceedings of the 5th International Conference on Recent Developments in Science, Engineering and Technology, REDSET 2019, held in Gurugram, India, in November 2019. The 74

revised full papers presented were carefully reviewed and selected from total 353 submissions. The papers are organized in topical sections on data centric programming; next generation computing; social and web analytics; security in data science analytics; big data analytics.

The Sociological Bent Harvard Business Review Press

After the treachery and slaughter they met during the raid on Glendalough, Thorgrim Night Wolf and his small band of surviving Northmen have returned to Vík-ló where Thorgrim again sits as lord of the Viking longphort. But the Northmen are a restless lot, and soon they find themselves eager to put to sea. Loading weapons and supplies aboard the four longships under Thorgrim's command,

they set out in search of the rich merchant ships that now ply Irish waters. But not all cargoes are the same, nor all merchant captains easy targets for the Norse raiders. Crossing wakes with a Frisian shipmaster who could be Thorgrim's equal in seamanship and cunning, the Northmen soon find themselves seeking vengeance even as they fight to keep from a watery grave.

New Trends in Psychobiography Springer Nature
The IER 2012 highlights the growing importance of the software industry for developing countries, building on earlier UNCTAD work on the promotion of the ICT sector in general and the software industry in particular. The report contains new data and features the new UNCTAD National Software System Index. It highlights the role of free and open source software for the development of a local software industry, reviews selected country case studies and presents policy options

This publication helps non-IP specialists understand the connection between IP, tourism and culture. Through multiple case studies, it illustrates how existing and potential IP tools, in particular branding and copyright, can add value to tourism services and products. It explains how to include IP

in tourism policies, product development and destination branding, and shows how different IP rights can be leveraged for fundraising purposes. Podcast Episode 2 -- Intellectual Property and Tourism <https://www.wipo.int/podcasts/en/wkc/index.html>

The book discusses innovative research from all aspects including theoretical, practical, and experimental domains that pertain to the expert systems, sustainable clouds, and artificial intelligence technologies.

Big Data, Cloud and Applications Prentice Hall
-Asia is a continent of contradictions and boundaries; it offers exciting business opportunities, but is also characterized by unpredictability and conflict. While flexibility and creativity are in the DNA of many startups in China, major players like Xiaomi and Alibaba have also emerged as global giants, challenging established global competitors. The authors of this book show that these companies are crossing various boundaries – between cultures, mindsets, and perspectives. At the same time, Western companies entering Asian markets face challenges that are very different from those on their home turf. This book addresses the needs of current and future managers doing business in Asia, who need to understand the individual, social and business challenges that can arise from crossing boundaries. The respective case studies provide essential insights on how several Asian companies have made impressive strides towards becoming

established players; how the revival of local brands and growing pride in local products has become a major challenge for global competition; how the need to actively practice corporate social responsibility in Asian markets is currently challenging many companies; and how the need for individual and team coaching among the members of management to support a company's development has grown tremendously, calling for new solutions.

Expert Clouds and Applications Springer Nature

"Jugaad Innovation is the most comprehensive book yet to appear on the subject [of frugal innovation]." —The Economist A frugal and flexible approach to innovation for the 21st century Innovation is a key directive at companies worldwide. But in these tough times, we can't rely on the old formula that has sustained innovation efforts for

decades—expensive R&D projects and highly-structured innovation processes. Jugaad Innovation argues the West must look to places like India, Brazil, and China for a new approach to frugal and flexible innovation. The authors show how in these emerging markets, jugaad (a Hindi word meaning an improvised solution born from ingenuity and cleverness) is leading to dramatic growth and how Western companies can adopt jugaad innovation to succeed in our hypercompetitive world. Outlines the six principles of jugaad innovation: Seek opportunity in adversity, do more with less, think and act flexibly, keep it simple, include the margin, and follow your heart Features twenty case studies on large corporations from around the world—Google, Facebook, 3M, Apple, Best Buy, GE, IBM, Nokia, Procter & Gamble, PepsiCo, Tata Group, and more—that

are actively practicing jugaad innovation The authors blog regularly at Harvard Business Review; their work has been profiled in BusinessWeek, MIT Sloan Management Review, The Financial Times, The Economist, and more Filled with previously untold and engaging stories of resourceful jugaad innovators and entrepreneurs in emerging markets and the United States This groundbreaking book shows leaders everywhere why the time is right for jugaad to emerge as a powerful business tool in the West—and how to bring jugaad practices to their organizations.

Discover the secret to being productive and successful no matter where you are with this essential guide to remote work. During COVID-19, working from home became the new normal. Now, both employers and employees find that the remote work they were forced to adjust to may be, well, better—financially, sustainably, and even in terms of overall morale and productivity. But working from home is not without its challenges. It can be difficult to eliminate distractions, strike a solid work/life balance,

and maintain social connections that are crucial in the workplace. Whether you're trying to find and land a job from the comfort of your home, learning to manage a virtual team, or dream of living a digital nomad lifestyle, *The Everything Guide to Remote Work* has everything you need to be successful. You'll learn to optimize your own workplace culture, whether it's in your home office or a constantly changing backdrop. So whether your company continues to work remotely full time or you only have to go to the office a few days a week, you'll be armed with all the tools you'll need to make the most out of this new lifestyle.

Cengage Learning Australia

This volume is a self-contained companion

piece to *Studying Vibrational Communication*, published in 2014 within the same series. The field has expanded considerably since then, and has even acquired a name of its own: biotremology. In this context, the book reports on new concepts in this fascinating discipline, and features chapters on state-of-the-art methods for studying behavior tied to substrate-borne vibrations, as well as an entire section on applied biotremology. Also included are a historical contribution by pioneers in the field and several chapters reviewing the advances that have been made regarding specific animal taxa. Other new topics covered are vibrational communication in vertebrates, multimodal communication, and biotremology in the classroom, as well as in art and music. Given its scope, the book will appeal to all those interested in communication and vibrational

behavior, but also to those seeking to learn about ideology, discourse and culture are discussed in an ancient mode of communication.

The Sociological Bent: Inside Metro Culture is an engaging introduction to sociology and to some exciting, illuminating and powerful ways of thinking about society. Written in a clear and accessible style, and drawing on the work of both contemporary and classical sociologists, this innovative text explores the relationships between various cultural forms, institutional sites and the practices of everyday life. The text is divided into thirty-seven short, digestible modules that address issues and topics of interest to contemporary students, ranging from passports and car advertising to personal hygiene and sex re-assignment surgery. Core concepts such as modernity, hegemony,

order to provide intellectual frameworks for the reading of diverse cultural forms and practices. Students are encouraged to move beyond commonsense assumptions about social experience and to theorise many naturalised and familiar aspects of their everyday lives, such as: * celebrity and the social functions of fame* fashions in food, clothing and consumer goods* globalisation, corporate collapse and crime* the nature of 'belonging' to nations, groups or subcultures* transformations in intimacy, and in sex and gender relations. The text also introduces students to a range of methods for comprehending contemporary life - including social semiotics, discourse analysis, field immersion and ethnography - equipping them with the most sophisticated tools of analysis that current scholarship can provide. The

Sociological Bent demonstrates the diversity of sociological thinking and research, and explains the historical background and meaning of the key concepts applied in each area of focus. It provides students with an excellent foundation for developing a sociological understanding of the contemporary world, as well as the sociological framework or infrastructure required for them to undertake further sociological studies.
