"A teenager living in an alternate-history futuristic Versailles must escape its walls by selling a happy-enducing makeup called Glitter"--
A Study Guide for "Harlem Renaissance" Thomas Nelson
In a riveting account based on

new documents and interviews with more than 400 sources on both sides of the aisle, award-winning reporter Michael Grunwald reveals the vivid story behind President Obama's \$800 billion stimulus bill, one of the most important and least understood pieces of legislation in the history of the country. Grunwald's meticulous reporting shows how the stimulus, though reviled on the right and the left, helped prevent a depression while jump-starting the president's agenda for lasting change. As ambitious and far-reaching as

FDR's New Deal, the Recovery Act is a down payment on the nation's economic and environmental future, the purest distillation of change in the Obama era. The stimulus has launched a transition to a clean-energy economy, doubled our renewable power, and financed unprecedented investments in energy efficiency, a smarter grid, electric cars, advanced biofuels, and green manufacturing. It is computerizing America's pen-and-paper medical system. Its Race to the Top is the boldest

education reform in U.S. history. It has put in place the biggest middle-class tax cuts in a generation, the largest research investments ever, and the most extensive infrastructure investments since Eisenhower's interstate highway system. It includes the largest expansion of antipoverty programs since the Great Society, lifting millions of Americans above the poverty line, reducing homelessness, and modernizing unemployment insurance. Like the first New Deal, Obama's stimulus has created legacies that last: the world's largest wind and solar projects, a new battery industry, a fledgling high-speed rail network, and the world's highest-speed Internet network. Michael Grunwald goes behind the scenes—sitting in on cabinet meetings, as well as recounting the secret strategy sessions where Republicans devised their resistance to Obama—to show how the stimulus

was born, how it fueled a resurgence on the right, and how it is changing America. The New New Deal shatters the conventional Washington narrative and it will redefine the way Obama's first term is perceived.

In *The Development of Black Theater in America*, Leslie Sanders examines the work of the American black theater's five most productive playwrights: Willis Richardson, Randolph Edmonds, Langston Hughes, LeRoi Jones, and Ed Bullins. Sanders sees the history of black theater as the process of creating a "black stage reality" while at the same time transforming conventions borrowed from white European culture into forms appropriate to black artists and audiences. The author argues that only when these things were accomplished could the aim of black playwrights, often articulated as "the realistic portrayal of the Negro," be fully realized. This study also examines the changing nature of the dialogue black playwrights have held with the dominant tradition and how that dialogue has shaped their imaginations. Sanders' discussion of Richardson, Edmonds, Hughes, Jones, and Bullins provides a context

for approaching the work of other black playwrights, such as James Baldwin, Lorraine Hansberry, and Owen Dodson. And her argument provides a concrete way of understanding how the context of a dominant culture influences the artistic imagination of writers not of that culture, who must come to terms with its influences and transform it into a vehicle of their own.

A haunting and triumphant story of a difficult and keenly felt life, *Change Me into Zeus's Daughter* is a remarkable literary memoir of resilience, redemption, and growing up in the South. Barbara Robinette Moss was the fourth in a family of eight children raised in the red-clay hills of Alabama. Their wild-eyed, alcoholic father was a charismatic and irrationally proud man who, when sober, captured his children's timid awe, but when (more often) drunk, roused them from bed for severe punishment or bizarre all-night poker games. Their mother was their angel: erudite and stalwart -- her only sin her inability to leave her husband for the sake of the children. Unlike the rest of her family, Barbara bore the scars of this abuse and neglect on the outside as well as the inside. As a result of childhood malnutrition and a complete lack of medical and dental care, the bones in her face grew

abnormally ("like a thin pine tree"), and she ended up with what she calls "a twisted, mummy face." Barbara's memoir brings us deep into not only the world of Southern poverty and alcoholic child abuse but also the consciousness of one who is physically frail and awkward, relating how one girl's debilitating sense of her own physical appearance is ultimately saved by her faith in the transformative powers of artistic beauty: painting and writing. From early on and with little encouragement from the world, Barbara embodied the fiery determination to change her fate and achieve a life defined by beauty. At age seven, she announced to the world that she would become an artist -- and so she did. Nightly, she prayed to become attractive, to be changed into "Zeus's daughter," the goddess of beauty, and when her prayers weren't answered, she did it herself, raising the money for years of braces followed by facial surgery. Growing up "so ugly," she felt the family's disgrace all the more acutely, but the result has been a keenly developed appreciation for beauty -- physical and artistic -- the evidence of which can be seen in her writing. Despite the deprivation, the lingering image from this memoir is not of self-pity but of the incredible bond between these eight siblings: the raucous, childish fun they had together, the making-do, and the total

devotion to their desperate mother, who absorbed most of the father's blows for them and who plied them with art and poetry in place of balanced meals. Gracefully and intelligently woven in layers of flashback, the persistent strength of Barbara Moss's memoir is itself a testament to the nearly lifesaving appreciation for literature that was her mother's greatest gift to her children.

Connections and Influence in the Russian and American Short Story InfoBase Publishing

In Connections and Influence in the Russian and American Short Story, editors Robert C. Hauhart and Jeff Birkenstein have assembled a collection of eighteen original essays written by literary critics from around the globe.

Collectively, these critics argue that the reciprocal influence between Russian and American writers is integral to the development of the short story in each country as well as vital to the global status the contemporary short story has attained. This collection provides original analyses of both well-known Russian and American stories as well as some that might be

more unfamiliar. Each essay is purposely crafted to display an appreciation of the techniques, subject matter, themes, and approaches that both Russian and American short story writers explored across borders and time. Stories by Gogol, Dostoevsky, Turgenev, Chekhov, and Krzhizhanovsky as well as short stories by Washington Irving, Faulkner, Langston Hughes, Richard Wright, Ursula Le Guin, Raymond Carver, and Joyce Carol Oates populate this essential, multivalent collection. Perhaps more important now than at any time since the end of the Cold War, these essays will remind readers how much Russian and American culture share, as well as the extent to which their respective literatures are deeply intertwined.

Vintage Hughes *The Ways of White Folks*

This is the first comprehensive selection from the correspondence of the iconic and beloved Langston Hughes. It offers a life in letters that showcases his many struggles as well as his memorable

achievements. Arranged by decade and linked by expert commentary, the volume guides us through Hughes' s journey in all its aspects: personal, political, practical, and—above all—literary. His letters range from those written to family members, notably his father (who opposed Langston' s literary ambitions), and to friends, fellow artists, critics, and readers who sought him out by mail. These figures include personalities such as Carl Van Vechten, Blanche Knopf, Zora Neale Hurston, Arna Bontemps, Vachel Lindsay, Ezra Pound, Richard Wright, Kurt Weill, Carl Sandburg, Gwendolyn Brooks, James Baldwin, Martin Luther King, Jr., Alice Walker, Amiri Baraka, and Muhammad Ali. The letters tell the story of a determined poet precociously finding his mature voice; struggling to realize his literary goals in an environment generally hostile to blacks; reaching out bravely to the young and challenging them to aspire beyond the bonds of segregation; using his artistic prestige to serve the disenfranchised and the cause of social justice; irrepressibly laughing at the world despite its quirks and humiliations. Venturing bravely on what he called the “ big sea ” of life, Hughes made his way forward always aware that his only hope of self-fulfillment and a sense of personal integrity lay in diligently pursuing his literary vocation. Hughes' s voice in these pages, enhanced by photographs and quotations from his poetry, allows us to know him intimately and gives us an unusually rich picture of this generous, visionary, gratifyingly good man who was also a genius of modern American letters.

In addition to being a poet, fiction writer, playwright, and essayist, Langston Hughes was also a globe-trotting cosmopolitan, travel writer,

translator, avid international networker, and—perhaps above all—pan-Africanist. In *Cultural Entanglements*, Shane Graham examines Hughes' s associations with a number of black writers from the Caribbean and Africa, exploring the implications of recognizing these multiple facets of the African American literary icon and of taking a truly transnational approach to his life, work, and influence. Graham isolates and maps Hughes' s cluster of black Atlantic relations and interprets their significance. Moving chronologically through Hughes' s career from the 1920s to the 1960s, he spotlights Jamaican poet and novelist Claude McKay, Haitian novelist and poet Jacques Roumain, French Negritude author Aim é C é saire of Martinique, South African writers Es' kia Mphahlele and Peter Abrahams, and Caribbean American novelist Paule Marshall. Taken collectively, these writers' intellectual relationships with Hughes and with one another reveal a complex conversation—and sometimes a heated debate—happening globally throughout the twentieth century over what Africa signified and what it meant to be black in the modern world. Graham makes a truly original contribution not only to the study of Langston Hughes and African and Caribbean literatures but also to contemporary debates about cosmopolitanism, the black Atlantic, and transnational cultures.

African American Literature Peter Lang

Loren Miller was one of the nation' s most prominent civil rights attorneys from the 1940s through the early 1960s and successfully fought discrimination in housing and education. Alongside Thurgood Marshall, Miller argued two landmark civil rights cases before the U.S. Supreme Court, whose decisions effectively abolished racially restrictive housing covenants. One of these cases, *Shelley v. Kraemer* (1948), is taught in nearly every American law school today. Later, the two men played key roles in *Brown v. Board of Education*, which ended legal segregation in public schools. *Loren Miller: Civil Rights Attorney and Journalist* recovers this remarkable figure from the margins of history and for the first time fully reveals his life for what it was: an extraordinary American story and a critical chapter in the annals of racial justice. Born to a former slave and a white midwesterner in 1903, Loren Miller lived the quintessential American success story, blazing his own path to rise from rural poverty to a position of power and influence. Author Amina Hassan reveals

Miller as a fearless critic of those in power and an ardent debater whose acid wit was known to burn “ holes in the toughest skin and eat right through double-talk, hypocrisy, and posturing. ” As a freshly minted member of the bar who preferred political activism and writing to the law, Miller set out for Los Angeles from Kansas in 1929. Hassan describes his early career as a fiery radical journalist, as well as his ownership of the California Eagle, one of the longest-running African American newspapers in the West. In his work with the California branch of the ACLU, Miller sought to halt the internment of West Coast Japanese American citizens, helped integrate the U.S. military and the Los Angeles Fire Department, and defended Black Muslims arrested in a deadly street battle with the LAPD. In 1964, Governor Edmund G. Brown appointed Miller as a Municipal Court justice for Los Angeles County, honoring his ceaseless commitment to improving the lives of Americans regardless of their race or ethnicity. “ Either we shall have to make democracy work for every American, ” Miller declared, or “ we shall not be able to preserve it for any American. ” The story told here is of an American original who

defied societal limitations to reshape the racial and political landscape of twentieth-century America.
