Human Geography REA

Fouberg/Murphy: Human

Geography: People, Place,

and Culture, 12th Edition,

teaches students to

appreciate the diversity of

people, places, and cultures,

and understand the role

people play in shaping our

world. The goals of this

edition are to provide

geographic context to global,

regional, national, and local

issues and to teach students

to think geographically and

critically about these issues.

Human Geography features

beautifully designed maps,

dozens of vibrant photographs

taken by the author team, and

author and guest field notes

that help students see how geographers read cultural landscapes and use fieldwork to understand places.

Fouberg's Human Geography, 12th Edition, now integrates Threshold Concepts to help students develop their ability to think geographically. Once they learn and apply one of these concepts in the context of a given place, students integrate it into their thinking and can draw from it as they learn new material and explore other places.
