Geopolitics, Geography and Strategy John Wiley & Sons
The Wiley Blackwell Companion to Political Geography aims to account for the intellectual and worldly developments that have taken place in and around political geography in the last 10 years. Bringing together established names in the field as well as new scholars, it highlights provocative theoretical and conceptual debates on political geography from a range of global perspectives. Discusses the latest developments and places increased emphasis on modes of thinking, contested key

concepts, and on geopolitics, climate change and terrorism. Explores the influence of the practice-based methods in geography and concepts including postcolonialism, feminist geographies, the notion of the Anthropocene, and new understandings of the role of non-human actors in networks of power. Offers an accessible introduction to political geography for those in allied fields including political science, international relations, and sociology.
Qualitative Change in Human Geography Basic Books
Bestselling author and eminent foreign policy scholar Zbigniew Brzezinski's classic book on America's strategic mission in the modern world. In The Grand Chessboard, renowned geostrategist Zbigniew Brzezinski delivers a brutally honest and provocative vision for American preeminence in the twenty-first century. The task facing the United States, he argues, is to become the sole political arbiter in Eurasian lands and to prevent the emergence of any rival power threatening our material and diplomatic interests. The Eurasian landmass, home to the greatest part of the globe's population, natural resources, and economic activity, is the "grand chessboard" on which America's supremacy will be ratified and challenged in the years to come. In this landmark work of public policy and political science, Brzezinski outlines a groundbreaking and powerful blueprint for America's vital interests in the modern world. In this revised edition, Brzezinski addresses recent global developments including the war in

Ukraine, the re-emergence of Russia, and the rise of China. The Wiley-Blackwell Companion
to Human Geography John Wiley
& Sons

From Africa to Asia and Latin America, the era of climate wars has begun. Extreme weather is breeding banditry, humanitarian crisis, and state failure. In *Tropic of Chaos*, investigative journalist Christian Parenti travels along the front lines of this gathering catastrophe--the belt of economically and politically battered postcolonial nations and war zones girding the planet's midlatitudes. Here he finds failed states amid climatic disasters. But he also reveals the unsettling presence of Western military forces and explains how they see an opportunity in the crisis to prepare for open-ended global counterinsurgency. Parenti argues that this incipient "climate fascism"--a political hardening of wealthy states-- is bound to fail. The struggling states of the developing world cannot be allowed to collapse, as they will take other nations down as well. Instead, we must work to meet the challenge of climate-driven violence with a very different set of sustainable economic and development policies.

SAGE Publications

Qualitative Change in Human Geography is a collection of studies that tackles concerns about human geography. The papers presented in the book deal with qualitative issues regarding human geography. The text contains eight different discussions that cover topics such as the direction of social practice research and the concept of people, society, and nature in social science. The book covers how economic and political interaction can explain the creation of spatial structure. The text discusses the explanatory theories and ideologies regarding the obsession of policymakers with the inner-city. The book will be of great interest to sociologists, psychologists, and individuals concerned with human geography.

The Wiley Blackwell Companion to Political Geography John Wiley & Son Limited

This edition features the exact same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also

offer a great value--this format costs significantly less than a new textbook. *Contemporary Human Geography* is a beautifully crafted, modular springboard into essential human and cultural geography concepts, designed for the contemporary geography student. This brief, innovative text explores current human geography in the bold visual style that distinguishes Dorling Kindersley (DK) publications. Topics within each chapter are organized into modular, self-contained, two-page spreads. Together with the graphics, Rubenstein's efficient writing engages students, presenting information clearly without sacrificing the high-quality geography content essential to students and instructors.

Written by an internationally recognized set of authors, it is an essential addition to any geography student's library. Human Geography John Wiley & Sons "Superb! How refreshing to see a Handbook that eschews convention and explores the richness and diversity of the geographical imagination in such stimulating and challenging ways." - Peter Dicken, University of Manchester "Stands out as an innovative and exciting contribution that exceeds the genre." - Sallie A. Marston, University of Arizona "Captures wonderfully the richness and complexity of the worlds that human beings inhabit... This is a stand-out among handbooks!" - Lily Kong, National University of Singapore "This wonderfully unconventional book demonstrates human

geography 's character and significance not by marching through traditional themes, but by presenting a set of geographical essays on basic ideas, practices, and concerns." - Alexander B. Murphy, University of Oregon "This SAGE Handbook stands out for its capacity to provoke the reader to think anew about human geography ... essays that offer some profoundly original insights into what it means to engage geographically with the world." - Eric Sheppard, UCLA Published in association with the journal Progress in Human Geography, edited and written by the principal scholars in the discipline, this Handbook demonstrates the difference that thinking about the world geographically makes. Each section considers how human geography shapes the world, interrogates it, and intervenes in it. It includes a major retrospective and prospective introductory essay, with three substantive sections on: Imagining Human Geographies Practising Human Geographies Living Human Geographies The Handbook also has an innovative multimedia component of conversations about key issues in human geography – as well as an overview of human geography from the Editors. A key reference for any scholar interested in questions about what difference it makes to think spatially or geographically about the world, this Handbook is a rich and textured statement about the geographical imagination. The Geography of War and Peace : From Death Camps to Diplomats Making Human Geography Human geography, as a

subject, has become widely recognized since its connections with the social sciences have widened and deepened the study of people, places and social structures. Horizons in Human Geography provides a clear and accessible sketch map of some of the latest and most promising developments in the subject. The book starts by assessing the role and limitations of techniques, models and theories and proceeds to provide a broad-ranging overview of the major social, cultural, urban, regional, political, economic and environmental issues confronting geographers today. Contents: Introduction; Part I: Beyond The Quantitative Revolution; Part II: People and Places, Societies and Spaces; Part III: Explorations in the City; IV: Landscapes of Production; Part V: Regional Geographies and Global Perspectives; Part VI: Politicising The Environment. "A book that will delight students... Key Texts in Human Geography is a primer of 26 interpretive essays designed to open up the subject's landmark monographs of the past 50 years to critical interpretation... The essays are uniformly excellent and the enthusiasm of the authors for the project shines through... It will find itself at the top of a thousand module handouts." - THE Textbook Guide "Will surely become a 'key text' itself. Read any chapter and you will want to compare it with another. Before you realize, an afternoon is gone and then you are tracking down the originals." - Professor James Sidaway, University of Plymouth 'An essential synopsis of essential readings that every human geographer must read. It is highly recommended for those just embarking on their

careers as well as those who need a reminder of how and why geography moved from the margins of social thought to its very core." - Barney Warf, Florida State University Undergraduate geography students are often directed to 'key' texts in the literature but find them difficult to read because of their language and argument. As a result, they fail to get to grips with the subject matter and gravitate towards course textbooks instead. Key Texts in Human Geography serves as a primer and companion to the key texts in human geography published over the past 40 years. It is not a reader, but a volume of 26 interpretive essays highlighting: the significance of the text how the book should be read reactions and controversies surrounding the book the book's long-term legacy. It is an essential reference guide for all students of human geography and provides an invaluable interpretive tool in answering questions about human geography and what constitutes geographical knowledge.
