Description.
The Atlas III consisted of two stages. The first stage was new, but the upper stage was the Centaur, which is still in use today on the Atlas V EELV. The first stage engines were Russian RD-180s, which are also used by the Atlas V. The Atlas III was produced in two versions. The baseline was the Atlas IIIA, but the Atlas IIIB,...

The Winter term of the Human Biology Core is dedicated to the study of cellular biology and human development. 3A begins with the cellular and molecular mechanisms that form the basis of human physiology and development, and then follows the development of a human being from conception to death. 3B explores the interaction of

biology and culture in human behavioral development and the growth of the child.
