This edited work attempts to 'make sense' of recent developments in the field of Human Resource Management in the People's Republic of China. It attempts to see how the paradoxes and contradictions engendered by contemporary Chinese society are being resolved in the enterprises and workplaces of the Middle Kingdom. The book starts with an overview of the literature, then follows with a selection of micro-oriented, concerned with topics like recruitment and retention, then macro-oriented empirical studies, a number of the latter dealing with strategic as well as performance issues, with last, those comparing sets of societal cultural values. It attempts a synthesis of what has emerged from recent research on the 'harmonious society'. These contributions from authors based in universities in eight countries, in Australia, Canada, China, Hong Kong, Japan, Taiwan, United Kingdom and USA, cover a wide range of research on HRM, from the micro- to the macro-. Six of them teach and/or research at campuses on the Mainland. Their empirical, field-based research covers the last half-decade and presents a robust picture of both what practitioners have adopted and how researchers have tried to 'make sense' of what they have investigated. This book was based on a special issue of Intl Journal of Human Resource Management.

This book is not available as a print inspection copy. To download an e-version click here or for more information contact your local sales representative. A comprehensive introduction to HRM for students who are new to the field, but who will be seeking employment in a global market, working with diverse colleagues and across international borders. Broken down into three parts covering Strategic Issues in HRM, HRM in Practice and HRM in Context, and weaving international and cross-cultural perspectives throughout, the text explores the ever-changing world of human resource management. The various theories, practices and debates that populate this field are examined, and the challenges and controversies that arise when theory meets practice are explored. The international dimension in all its aspects including cross-cultural working, diversity, equality and international business have been considered throughout. Practical learning features have been included to help students develop skills they can apply to their course and in graduate employment. In the new edition, the authors have further explored the international context for HRM, not just for multinational corporations but also for small businesses and not-for-profit organizations, with added analysis on the importance of recognizing that effective functioning of organizations is not simply measured by financial performance, but also by taking into account the broader social, economic and political contexts. International case studies covering emerging economies and specific ethical issues are included with each chapter containing two case studies - one short case mid-chapter and a longer end-of-chapter case, each of which has a set of accompanying questions for students to explore individually or in groups to broaden their learning. The book is supported by a SAGE Edge site, featuring a range of tools and resources for lecturers and students, including SAGE journal articles, PowerPoint slides, web and video links, interactive multiple choice questions, chapter specific podcasts and an instructor's manual. Suitable for undergraduates and post-graduate students looking for a strategic and international perspective of HRM.
