Comprehending as capably as concurrence even more than supplementary will have enough money each success. next-door to, the proclamation as capably as perspicacity of this Human Rights Council Resolution 1618 can be taken as capably as picked to act.

Promoting Religious Freedom in an Age of Intolerance Central European University Press

This book conceptualizes the 'prohibition of advocacy of religious hatred' from the perspectives of international and comparative law.

Combatting Global Religious Intolerance Cambridge University Press

The idea of human rights began as a call for individual freedom from tyranny, yet today it is exploited to rationalize oppression

and promote collectivism. How did this happen? Aaron Rhodes, recognized as “one of the leading human rights activists in the world” by the University of Chicago, reveals how an emancipatory ideal became so debased. Rhodes identifies the fundamental flaw in the Universal Declaration of Human Rights, the basis for many international treaties and institutions. It mixes freedom rights rooted in natural law—authentic human rights—with “economic and social rights,” or claims to material support from governments, which are intrinsically political. As a result, the idea of human rights has lost its essential meaning and moral power. The principles of natural rights, first articulated in antiquity, were compromised in a process of accommodation with the Soviet Union after World War II, and under the influence of progressivism in Western democracies. Geopolitical and ideological forces ripped the concept of human rights from its foundations, opening it up to abuse. Dissidents behind the Iron Curtain saw clearly the difference between freedom rights and state-granted entitlements, but the collapse of the USSR allowed demands for an expanding array of economic and social rights to

gain legitimacy without the totalitarian stigma. The international community and civil society groups now see human rights as being defined by legislation, not by transcendent principles. Freedoms are traded off for the promise of economic benefits, and the notion of collective rights is used to justify restrictions on basic liberties. We all have a stake in human rights, and few serious observers would deny that the concept has lost clarity. But no one before has provided such a comprehensive analysis of the problem as Rhodes does here, joining philosophy and history with insights from his own extensive work in the field.

Islamic Law and International Human Rights Law Routledge

The importance of the rule of law is universally recognised and of fundamental value for most societies. Establishing and promoting the rule of law in the Muslim world, particularly in the Middle East, North Africa, and Central Asia, has become a pressing but complicated issue. These states have Muslim majority populations, and the religion of Islam has an important role in the traditional structures of their societies. While the Muslim world is taking gradual steps towards the establishment of rule of law systems, most Muslim majority countries may not yet have effective legal systems with independent judiciaries, which would allow the state and institutions to be controlled by an effective rule of law system. One important aspect of the rule of law is freedom of expression. Given the sensitivity of Muslim societies in relation to their sacred beliefs, freedom of expression, as an international human rights issue, has raised some controversial cases. This book, drawing on both International and Islamic Law, explores the rule of law, and freedom of expression and its practical application in the Muslim world.

Offensive Speech, Religion, and the Limits of the Law Edward Elgar Publishing

Established in 1969, the Organization of Islamic Cooperation (OIC) is an intergovernmental organization the purpose of which is the

strengthening of solidarity among Muslims. Headquartered in Jeddah, the OIC today consists of fifty seven states from the Middle East, Asia, Africa, and Latin America. The OIC's longevity and geographic reach, combined with its self-proclaimed role as the United Nations of the Muslim world, raise certain expectations as to its role in global human rights politics. However, to date, these hopes have been unfulfilled. The Organization of Islamic Cooperation and Human Rights sets out to demonstrate the potential and shortcomings of the OIC and the obstacles on the paths it has navigated. Historically, the OIC has had a complicated relationship with the international human rights regime. Palestinian self-determination was an important catalyst for the founding of the OIC, but the OIC did not develop a comprehensive human rights approach in its first decades. In fact, human rights issues were rarely, if at all, mentioned at the organization's summits or annual conferences of foreign ministers. Instead, the OIC tended to focus on protecting Islamic holy sites and strengthening economic cooperation among member states. As other international and regional organizations expanded the international human rights system in the 1990s, the OIC began to pay greater attention to human rights, although not always in a manner that aligned with Western conceptions. This volume provides essential empirical and theoretical insights into OIC practices, contemporary challenges to human rights, intergovernmental organizations, and global Islam. Essays by some of the world's leading scholars examine the OIC's human rights activities at different levels—in the UN, the organization's own institutions, and at the member-state level—and assess different aspects of the OIC's approach, identifying priority areas of involvement and underlying conceptions of human rights. Contributors: Hirah Azhar, Mashood A. Baderin, Anthony Tirado Chase, Ioana Cismas, Moataz El Fegier, Turan Kayaoglu, Martin Lestra, Ann Elizabeth Mayer, Mahmood

The Air Force Law Review Cambridge University Press

What is the role of religion(s) in a human rights culture and in human rights education? How do human rights and religion relate in the context of public education? And what can religious education at public schools contribute to human rights education? These are the core questions addressed by this book. Stimulating deliberations, illuminating analyses and promising conceptual perspectives are offered by renowned experts from ten countries and diverse academic disciplines.

Summary Prepared by the Office of the United Nations High Commissioner for Human Rights in Accordance with Paragraph 15(c) of the Annex to Human Rights Council Resolution 5/1 and Paragraph 5 of the Annex to Council Resolution 16/21 Cambridge University Press

The twenty-first century has been significantly shaped by the growing importance of religion in international politics resulting in rising polarization among nation states. This new dynamic has presented new challenges to international human rights principles. This book deals with some of these new challenges, particularly the growing demand by Muslim states for protection of Islamic religion from blasphemy and defamation. Member states of the Organization of Islamic Cooperation (OIC), through resolutions at the United Nations, made efforts to introduce laws that globally protect Islamic religion from blasphemy and defamation. The bid by OIC member states faced opposition from Western countries. The conflicting claims of the two sides are discussed in this book. The book clearly

shows the impact of blasphemy and defamation of religion laws on certain aspects of fundamental human rights principles.

Blasphemy and Freedom of Expression Routledge

This book focuses on regulatory challenges of creating and sustaining freedom of speech and freedom of information two decades after the fall of the Berlin wall, in global, comparative context. Some chapters overview, others address specific issues, or describe country case studies. Instead of trying to provide an exhaustive assessment which in one volume might not reach deeper analyzes of contextual details, this book will shed light on and help better understanding of general challenges for freedom of speech and information through varying comparative examples and highlighting important regulatory questions.

Hate Speech and Human Rights in Eastern Europe BRILL

Since its establishment the work of the Human Rights Council (UNHRC) has been subject to many interpretations, theories, comments or conclusions. This comprehensive book dissects every aspect of the UNHRC's work and analyses the efficiency of, and interactions between, its mechanisms. Authored by the first Secretary of the UNHRC, this book provides unique practitioner insights into the complex decision making processes of the Council alongside the core variations from its predecessor.

Human Rights and Cultural Diversity Columbia University Press

Maps the UN legal instruments relevant for the protection and promotion of the rights to freedom of expression and information.

Routledge Handbook of International Human Rights Law Springer

"The book explores, and challenges, the particular institutional perspectives which emerge in the context of differing approaches to the protection of religious rights. It identifies new directions for approaching religious rights through international law by examining existing legal tools, assessing their achievements and shortcomings.

By studying religious organizations' support for international human

rights protection, as well as religious critiques of international human rights, it offers complementary perspectives on the institutions and processes of religious rights protection. It identifies ways in which these rights are being eroded and suggests new forms of reinforcement and protection, not least by way of an alternative religious 'bill of rights'. So this collection of essays is offered as a record of a set of important debates. The texts expose not merely the evolving normative framework within which questions of religious rights are resolved in international law. The Editors have been as much interested in how activists in the human rights field perceive that framework, as well as the political contests which lie behind them. By interweaving practitioner perspectives with scholarly reflection, the volume provides an opportunity for the reader to come away with an understanding of how international law works in a context both fascinating and fluid"--Unedited summary from book jacket.

The Changing Nature of Religious Rights Under International Law Oxford University Press, USA

In an age of intolerance where religious persecution is widespread, Barbara Ann Rieffer-Flanagan explores how societies can promote freedom of religion or belief as a fundamental right of citizens.

Religious Offence and Human Rights The Stationery Office

The United Nations High Commissioner for Human Rights: Conscience for the World examines the strategies pursued and results achieved by the UN 's top human rights officials to end atrocities and promote justice, equality, and protection worldwide.

The Organization of Islamic Cooperation and Human Rights OUP Oxford

Against the backdrop of the new globalized hate speech dynamics,

the nature and scope of States' obligations pursuant to international human rights law on prohibiting incitement to hatred have taken on increased importance and have become a controversial issue within multilateral human rights diplomacy. Key questions being posed in the on-going debates over how best to respond to the new wave of hatred include whether the international legal norm against incitement to hatred, as it currently stands, is suitable to address the contemporary challenges of this phenomenon. Alternatively, does it need to be developed further? This book traces the journey of this norm in three analytical domains; its emergence, relevant supranational jurisprudence, and the recent standard-setting attempts within the UN. The book argues that five internal features of the norm had a strong influence on its difficult path within international human rights law.

The Rule of Law, Freedom of Expression and Islamic Law OUP Oxford

The Routledge Handbook of International Human Rights Law provides the definitive global survey of the discipline of international human rights law. Each chapter is written by a leading expert and provides a contemporary overview of a significant area within the field. As well as covering topics integral to the theory and practice of international human rights law the volume offers a broader perspective through examinations of the ways in which human rights law interacts with other legal regimes and other international institutions, and by addressing the current and future challenges facing human rights. This highly topical collection of specially commissioned papers is split into four sections: The nature and evolution of international human rights law discussing the origins,

theory and practice of the discipline. Interaction of human rights with other key regimes and bodies including the interaction of the discipline with international economic law, international humanitarian law, and development, as well as other legal regimes. Evolution and prospects of regional approaches to human rights discussing the systems of Europe, the Americas, Africa and South East Asia, and their relationship to the United Nations treaty bodies. Key contemporary challenges including non-State actors, religion and human rights, counter-terrorism, and enforcement and remedies. Providing up-to-date and authoritative articles covering key aspects of international human rights law, this book work is an essential work of reference for scholars, practitioners and students alike. Chapter 35 of this book is freely available as a downloadable Open Access PDF at www.routledgehandbooks.com. It has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 3.0 license.

Realizing the Right to Development Oxford University Press

The Asian Yearbook of Human Rights and Humanitarian Law aims to publish peer-reviewed scholarly articles and reviews as well as significant developments in human rights and humanitarian law. It examines international human rights and humanitarian law with a global reach, though its particular focus is on the Asian region. The focused theme of Volume 2 is Islamic Law and its Implementation in Asia and the Middle East.

Religious Actors and International Law Springer Nature

Projecting a global interdisciplinary vision, this insightful book develops a peer-to-peer learning methodology to facilitate reconciling religion and human rights, both in multilateral contexts and at the national level. Written by leading human rights practitioners, the book illuminates the tension zones between religion and rights, exploring how the ‘faith’ elements in both disciplines can create synergies for protecting equal human dignity.

Reconciling Religion and Human Rights CreateSpace

This comprehensive Handbook examines the relationship between religion and international relations, mainly focusing on several world religions – Christianity, Islam, Hinduism, and Judaism. Providing a timely update on this understudied topic, it evaluates how this complex relationship has evolved over the last four decades, looking at a variety of political contexts, regions and countries.

Jus Post Bellum Martinus Nijhoff Publishers

A student guide to reconciling human rights with cultural difference, using political philosophy and real-life case studies How can universal human rights be reconciled with respect for wide cultural differences? This textbook introduces the core issues for students and addresses them through an interdisciplinary analysis of key case studies. Throughout the book, an alternative philosophical framework is offered as a model through which universalism and difference can be reconciled into a single global vision. Key Features Combines the theory and application of human rights to provide practical help for students and course leaders Key case studies examine the rights of women, ethnic and national minorities, indigenous peoples and religious communities Addresses a broad range of on-going political struggles and issues, including FGM, LGBT rights, freedom of speech and the rights of indigenous peoples Outlines a new human rights-based philosophical perspective that enables students to understand human rights within culturally diverse environments Helpful student features include: Core questions: each chapter starts with 10 core questions, which students are invited to answer as they read to put what they learn into practice Further reading: every chapter ends with suggestions for further reading, to help students deepen their study in particular areas Two-colour layout: blue text boxes and headings draw your attention to important information and make the book easier to read

The Right to Protection from Incitement to Hatred Edinburgh University Press

This book is devoted to the 25th anniversary of the United Nations

Declaration on the Right to Development. It contains a collection of analytical studies of various aspects of the right to development, which include the rule of law and good governance, aid, trade, debt, technology transfer, intellectual property, access to medicines and climate change in the context of an enabling environment at the local, regional and international levels. It also explores the issues of poverty, women and indigenous peoples within the theme of social justice and equity. The book considers the strides that have been made over the years in measuring progress in implementing the right to development and possible ways forward to make the right to development a reality for all in an increasingly fragile, interdependent and ever-changing world.

The Debasing of Human Rights Lexington Books

"Freedom of Religious or Belief: An International Law Commentary is the first commentary to look comprehensively at the international provisions for the protection of freedom of religion or belief, considering how they are interpreted by various United Nations Special Procedures and Treaty Bodies." -- Back cover.
