Melanie Likos had lived a big life. Travelling the world cooking for the upper class on luxury yachts, waiting tables in the ski fields of France and falling foul of a ghost who haunted her on Chinese ship, her adventures were in themselves worthy of a book. On return home, she took a job as a tour guide in the Kimberly's and found love in a handsome cowboy. That love quickly turned sour, and the harrowing journey they took across Australia demonstrates how easily a strong and independent woman can fall captive to a violent man. At a time when a woman dies every week at the hands of her male partner, it makes for horrifying and yet absolutely necessary reading. Her story of survival would in itself be remarkable, if it wasn't for what came next. Weeks after escaping him, her friends coax her out of the house for a day out on the Murray River. Those first few tentative steps she takes towards reclaiming her sense of security, personal safety and liberty, are stolen from her in one devastating hour. On one of the blackest days in Australian history, Mel finds herself again fighting for her life. Still Breathing is the gripping

story of a young woman who has not once, not twice, but repeatedly fought for her very breath - and yet done so with a dry wit and an unshakeable sense of her own sense of self, and all that she has to live for.

Fathomlessly inventive and original, Julia Armfield's *Our Wives Under the Sea* is a portrait of marriage as we've never seen it before. "Shocking...Achingly poetic...Sharp and beautiful as coral polyps...Armfield exercises an exquisite—even sadistic—sense of suspense." —Ron Charles, *The Washington Post* "A wonderful novel, deeply romantic and fabulously strange. I loved this book." —Sarah Waters "Without a doubt, one of the best books I've ever read." —Kristen Arnett Leah is changed. A marine biologist, she left for a routine expedition months earlier, only this time her submarine sank to the sea floor. When she finally surfaces and returns home, her wife Miri knows that something is wrong. Barely eating and lost in her thoughts, Leah rotates between rooms in their apartment, running the taps morning and night. Whatever happened in that vessel, whatever it was they were supposed to be studying before they were stranded, Leah has carried part of it with her, onto dry land and into their home. As Miri searches for answers, desperate to understand what happened below the water, she must face the possibility that the woman she loves is slipping from her grasp. By turns elegiac and furious, wry and heartbreaking, *Our Wives Under the Sea* is an exploration of the unknowable

depths within each of us, and the love that compels us nevertheless toward one another.

Over two hundred and thirty years ago the Fallocaust happened, killing almost everything that lived and creating what is now known as the greywastes. A dead wasteland where cannibalism is a necessity, death your reality, and life before the radiation nothing but pictures in dog-eared magazines. Reaver is a greywaster, living in a small block controlled by a distant ruler said to have started the Fallocaust. He is a product of the savage world he was raised in and prides himself on being cold and cruel. Then someone new to his town catches his eye, someone different than everyone else. Without knowing why he starts to silently stalk him, unaware of where it will lead him.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE

program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Besides its coverage of the four important aspects of synchrotron sources, materials and material processes, measuring techniques, and applications, this ready reference presents both important method types: diffraction and tomography. Following an introduction, a general section leads on to methods, while further sections are devoted to emerging methods and industrial applications. In this way, the text provides new users of large-scale facilities with easy access to an understanding of both the methods and opportunities offered by different sources and instruments.

Riley Blakely and the remainder of Grandview High's french class is heading out on a school trip to Paris. The three weeks in Paris are supposed to be an 'educational opportunity' for this lot. But of course, these hormonal teenagers just cannot abide by the rules. The one rule set by their lovely Mr. Walker: You cannot room with somebody of the opposite gender. So what does this french class do? Room with the opposite gender, with a funny way of picking roommates. Chit picking. Because hormonal teenagers can just never get enough. Insert Asher West. Her not so secret annoying hater. It's a hate-hate relationship. He's the guy who picked Riley's name. He's the most popular guy in the freaking school and Riley? Not so much. Put the two together and you'll get a whole lot of arguments and awkward moments. They're roommates and they're stuck in Paris, the city of love and the city of lights

For Resilience Engineering, 'failure' is the result of the adaptations necessary to cope with the complexity of the real world, rather than a breakdown or malfunction. The performance of individuals and organizations must continually adjust to current conditions and, because resources and time are finite, such adjustments are always approximate. This definitive new book explores this groundbreaking new development in safety and risk management, where 'success' is based on the ability of organizations, groups and individuals to anticipate the changing shape of risk before failures and harm occur. Featuring contributions from many of the worlds leading figures in the fields of human factors and safety, Resilience Engineering provides thought-provoking insights into system safety as an aggregate of its various components, subsystems, software, organizations, human behaviours, and the way in which they interact. The book provides an introduction to Resilience Engineering of systems, covering both the theoretical and practical aspects. It is written for those responsible for system safety on managerial or operational levels alike, including safety managers and engineers (line and maintenance), security experts, risk and safety consultants, human factors professionals and accident investigators.

'An absolute gutting masterpiece of a book.' LISA TADDEO, author of THREE WOMEN 'Clover Stroud is a fearless explorer of the human heart, and a writer of incomparable grace and passion. She also understands more about loss, sorrow, grief, and resilience than most people will ever have to learn.' ELIZABETH GILBERT, author of EAT, PRAY, LOVE 'So beautiful, compelling and raw. Clover records the shifting, glittering rainbow of her experience of love and death with extraordinary honesty and precision.' GAVANNDRA HODGE, author of THE CONSEQUENCES OF LOVE 'The most beautiful, enduring, indelible, transcendent love letter from a sister to a sister that I will ever read' JULIET NICOLSON, author of FROSTQUAKE ..... 'Can death bring something good to my life?' A few weeks before Christmas, Clover's sister died of breast cancer, aged forty-six. Just days before, she had been given years to live. Her sudden death split Clover's life apart. The Red of My Blood charts Clover's fearless passage through the first year after her sister's death. It is a book about what life feels like when death interrupts it, and about bearing the unbearable and describing an experience that seems beyond words. Lyrical, hopeful, it is also about the magical way in which death and life exist so vividly beside one another, and the wonder of being human.

Kevin Kearney-Audio Artist, Sound Designer, Location Sound Recordist follows the growth of television, television commercial production and filmmaking in Australia. The extremely small population of Australia up to the seventies allowed a major crossover in the arts between poets, musicians, writers, experimental filmmakers and entrepreneurs which in turn influenced the work of audio artists, like Kearney, in both their commercial and personal film work. Moreover because there is a paucity of information and very few books available on such people as audio artists, sound designers and location sound recordists, this book and the following volume will be invaluable to those interested in analogue sound on film production period.
