Jerusalem's Temple Mount Continuum

According to the Hebrew Bible, King Solomon built a Temple to the Lord in Jerusalem on a threshing floor that his father, King David, purchased from Araunah the Jebusite for 50 shekels of silver. "No other building of the ancient world," claims the Anchor Bible Dictionary, "either while it stood in Jerusalem or in the millennia since its final destruction has been the focus of so much attention throughout the ages." This stunning book, with its 160 illustrations, is a history of the Temple or Temples in Jerusalem from Solomon's time to the present. The book reads like an archaeological excavation, digging deeper and deeper at one site. Starting with a discussion of the Palestinian denial of a Jewish Temple, the book proceeds to explore the Islamic Dome of the Rock, the little-known Roman Temple of Jupiter, Herod's massive Temple Mount, the Temple built by the exiles returning from Babylon, and finally Solomon's Temple. With a lively and informative text to accompany the pictures, Jerusalem's Temple Mount is replete with archaeology, history, legends (Jewish, Christian, and Muslim), inscriptions, biblical interpretations, and forgeries.

At seventy-five, Terry and Monica Darlington had done everything they could think of doing, including building a business, becoming athletes and running a literary society. Lately they had become boating adventurers and Terry a bestselling writer. But in their Midlands canal town in November, life was looking dull and short on surprises. Then their famous canal boat was destroyed by fire. Within a few days they had bought a new one and they headed north in the Phyllis May 2 - to Liverpool, Lancaster, York, the Pennines and Wigan Pier. Terry recorded the journey and alongside it the story of his life and his marriage and his whippet Jim, with a broken ear like a flat cap, and Monica's whippet Jess, the Flying Catastrophe. Funny, affecting and beautifully told, this story brims with canals and rivers and whippets, and adventures all over the world, and the famous and fascinating people the Darlingtons have met. It's another classic Narrow Dog book.

Shantyboat is the story of a leisurely journey down the Ohio and Mississippi rivers to New Orleans. For most people such a journey is the stuff that dreams are made of, but for Harlan and Anna Hubbard, it became a cherished reality. In their small river craft, the Hubbards became one with the flowing river and its changing weathers. This book mirrors a life that is simple and independent, strenuous at times, but joyous, with leisure for painting and music, for observation and contemplation.

This third book in the GISDATA series focuses on the widespread use of geographical information systems GIS in European local government. The editors include a wide range of applications carried out by different professional groups, and offer the opportunity of studying the extent to which diffusion of innovations like GIS are sensitive to national issues such as cultural context, institutional setup and the availability of data.; The book answers key questions such as: what can be learnt from research on organizational behaviour in relation to technological innovation?; what are the classical features of the GIS diffusion process?; to what extent is the adoption and utilization of GIS facilitated - or impeded - by the organizational culture within which it takes place?; and what mechanisms can be applied to enhance the diffusion of GIS? The book covers aspects of diffusion in the following European countries: UK, France, Italy, Poland, Denmark, The Netherlands, Germany, Greece and Portugal.
