The 2012 film *The Hunger Games* and its three sequels, appearing quickly over the following three years, represent one of the most successful examples of the contemporary popularity of youth-oriented speculative film and television series. This book considers "The Hunger Games" as an intertextual field centred on this blockbuster film franchise but also encompassing the successful novels that preceded them and the merchandised imagery and the critical and fan discourse that surrounds them. It explores the place of *The Hunger Games* in the history of youth-oriented cinema; in the history of speculative fiction centred on adolescents; in a network of continually evolving and tightly connected popular genres; and in the popular history of changing ideas about girlhood from which a successful action hero like Katniss Everdeen could emerge.

This collection of fresh essays on Suzanne Collins's epic trilogy spans multiple disciplines. The contributors probe the trilogy's meaning using theories grounded in historicism, feminism, humanism, queer theory, as well as cultural, political, and media studies. The essayists demonstrate diverse perspectives regarding Collins's novels but their works have three elements in common: an appreciation of the trilogy as literature, a belief in its permanent value, and a need to share both appreciation and belief with fellow readers. The 21 essays that follow the context-setting introduction are grouped into four parts: Part I "History, Politics, Economics, and Culture," Part II "Ethics, Aesthetics, and Identity," Part III "Resistance, Surveillance, and

Simulacra,” and Part IV “Thematic Parallels and Literary Traditions.” A core bibliography of dystopian and postapocalyptic works is included, with emphasis on the young adult category—itsself an increasingly crucial part of postmodern culture. A 2018 AESA Critic's Choice Award Winner A 2019 SPE Outstanding Book Award Winner Teacher moonlighting has been studied and documented since at least the early 1960s, and yet, it can be easily argued that the phenomenon is still not understood. Teachers moonlight in higher numbers than other professions, and while most teachers claim that they do it for the money, increases in their compensation have not reduced the practice. By the Light of the Silvery Moon is the first book to provide a thorough review of the research on the topic, looking deeply into the intricate workings of a profession that is at least imperiled or, in the best of scenarios, a profession that is in transition. Teachers play a critical role in society, so teaching needs to be a sustainable profession where teachers may still moonlight, but the opportunities to expand the status as well as the content and context of their work are unlimited. This book fills an important gap in the literature by bringing together the research and situating it within a broader conversation about teachers' work. Perfect for courses such as: All undergraduate and graduate Foundations of Education courses, Introduction to Education, History and Philosophy of Education, and Teacher Leadership.
