Filled with equestrian insights, Harry Chamberlin's biography is the story of a preeminent equestrian theorist and teacher, an adoring father and husband, a brilliant military officer and a genius in the saddle. His career spanned 34 years of accomplishment. He trained the 1st Cavalry Division to become "the best trained division in the Army" and one of its most decorated combat divisions during World War II. He earns the highest respect of generals and sergeants. At the Olympics of 1932, the US Cavalry's greatest horseman, Major Harry Chamberlin faces a problem: His prized jumper goes lame. Rather than scratch, Chamberlin mounts a gray mare on which he has never competed before, rides into the stadium as 105,000 spectators look on and surmounts the most difficult jumping course in Olympic history. His performance astounds to this day. A horseman of uncanny abilities, Chamberlin devised a unique combination of techniques to ride and train. His system enables novice riders to

begin on a solid foundation and seasoned Olympians to further hone their skills. He combined French, Italian, German, and American methods to fashion a revolutionary new riding "seat" which remains standard for many equestrians today. "Beyond his horsemanship, in an era that produced the greatest crop of outstanding soldiers in America's history, Harry Chamberlin was a soldier's soldier? He represents the model military professional?" - Historian Lt. Col. Louis DiMarco, Ph.D. Years earlier, the Commandant of the famous Italian Cavalry School at Tor di Quinto, says of Chamberlin: "the pupil has surpassed his master." Years later, George H. Morris calls Chamberlin the "founding father of equestrian sport in the United States." James Wofford ranks him "second only to Caprilli in international influence" and writes: "Chamberlin is to horsemanship as Mozart is to music."

The Youthful Wanderer Ballantine Books

An illuminating look at
the story behind the

success of one of the best dressage riders in the world. German Olympian Isabell Werth has six Olympic gold medals and scores of championship titles to her name—there are few her equal on paper. But an equestrian's success is wholly dependent on the relationship she has with her athletic partner her horse and Werth's astounding accomplishments would not have been possible without her unique approach to working with the animals she's loved since childhood. Even as a little girl, growing up on a farm on the Lower Rhine, it was clear that Werth possessed an extraordinary gift for empathizing with horses and foreseeing how they were likely to react in certain situations. This insight gave her a special ability as a rider and trainer. Here, Werth collaborates with accomplished sports journalist Evi Simeoni someone who has witnessed and written about her career from the very beginning to tell her life story. Readers will get the inside scoop when it comes to Werth's accomplishments and her failures, too. They'll hear her personal thoughts regarding some of the biggest controversies to rock the dressage world: Rollkur and

Totilas. Perhaps most importantly, they'll learn about each of the sensitive and talented horses that has impacted Werth's life, including Gigolo, Satchmo, and Bella Rose. There is a meme that is popular in the riding community that says, "Two legs move our body, four legs move our soul." It is this sentiment that Werth feels perhaps best defines her.
