[Mathematician and Martyr ...](#)

Hypatia was one of the most

eminent mathematicians and

astronomers of late antiquity.

Scholars traveled from around the classical world to learn mathematics and astronomy at her school. Her brutal killing at the hands of a frenzied mob of Christian fanatics shocked the Greco-Roman world.

Hypatia 's murder was a historical milestone.

Hypatia (born c. 350–370; died 415

AD) was a

Hellenistic

Neoplatonist

philosopher,

astronomer, and

mathematician, who

lived in

Alexandria, Egypt,

then part of the

Eastern Roman

Empire. She was a

prominent thinker

of the Neoplatonic

school in Alexandria where she taught philosophy and astronomy. She is the first female mathematician whose life is reasonably well recorded.

Hypatia of Alexandria: Mathematician and Martyr eBook ...

Hypatia of Alexandria (c. 370 CE - March 415 CE) was a female philosopher and mathematician, born in Alexandria, Egypt possibly in 370 CE (although some scholars cite her birth as c. 350 CE). She was the daughter of the mathematician Theon, the last Professor at the University of Alexandria, who tutored her in math, astronomy, and the philosophy of the day

which, in modern times, would be considered science .

Hypatia, Ancient Alexandria's Great Female Scholar ...

Hypatia of Alexandria was the first woman to make a substantial contribution to the development of

mathematics. Hypatia was the daughter of the mathematician and philosopher Theon of Alexandria and it is fairly certain that she studied mathematics under the guidance and instruction of her father. It is rather remarkable that Hypatia became head of the Platonist school at Alexandria in about 400 AD.

[Hypatia | Death, Facts, & Biography | Britannica](#)

The established facts of Hypatia's life are essentially these: (1) She was the daughter of Theon of Alexandria. (2) She was trained as a mathematician by her father and

eventually replaced him as the leading mathematician of Alexandria and, indeed as the pre-eminent mathematician of her time.

Hypatia - Wikipedia

Hypatia of Alexandria was the first philosopher, mathematician, and physicist. She was born in Egypt at the end of the 4th century AD. She was teacher and head of the Neoplatonic school of Alexandria at the beginning of the 5th century. Hypatia was very knowledgeable in subjects such as geometry and logic.

Hypatia - Agnes Scott College
mathematician.

Although the subject matter is different from Hypatia's known work related to astronomy and the mathematics associated with it, Diophantus was an Alexandrian mathematician, and Hypatia, as the leading mathematician of her time, must have known of his work.
