Why are people around the world so very different? What makes us live, buy, even love as we do? The answers are in the codes. In *The Culture Code*, internationally revered cultural anthropologist and marketing expert Clotaire Rapaille reveals for the first time the techniques he has used to improve profitability and practices for dozens of Fortune 100 companies. His groundbreaking revelations shed light not just on business but on the way every human being acts and lives around the world. Rapaille's breakthrough notion is that we acquire a silent system of codes as we grow up within our culture. These codes—the Culture Code—are what make us American, or German, or French, and they invisibly shape how we behave in our personal lives, even when we are completely unaware of our motives. What's more, we can learn to crack the codes that guide our actions and achieve new understanding of why we do the things we do. Rapaille has used the

Culture Code to help Chrysler build the PT Cruiser—the most successful American car launch in recent memory. He has used it to help Procter & Gamble design its advertising campaign for Folger's coffee – one of the longest lasting and most successful campaigns in the annals of advertising. He has used it to help companies as diverse as GE, AT&T, Boeing, Honda, Kellogg, and L'Oréal improve their bottom line at home and overseas. And now, in *The Culture Code*, he uses it to reveal why Americans act distinctly like Americans, and what makes us different from the world around us. In *The Culture Code*, Dr. Rapaille decodes two dozen of our most fundamental archetypes—ranging from sex to money to health to America itself—to give us “a new set of glasses” with which to view our actions and motivations. Why are we so often disillusioned by love? Why is fat a solution rather than a problem? Why do we reject the notion of perfection? Why is fast food in our lives to stay? The answers are in the Codes. Understanding the Codes gives us unprecedented freedom over our lives. It lets us do business in dramatically new ways. And it finally explains why people around the world really are different, and reveals the hidden clues to understanding us all.

Abandon Me McGraw-Hill Companies Echoes in Time (90,000 words, 41 chapters, and epilogue) blends the themes of alien contact with the discovery of an asteroid in an orbit that will lead to a collision with earth. The "alien" culture, as the story develops, is not from some far-off star system, but the star-traveling descendants of an earth-born race of dinosaurs that evolved shortly before their own budding civilization was destroyed by an asteroid impact 65 million years ago. The ship bearing a member of the Kirraka, as these not-so-alien beings call themselves, lands in a remote area of Texas. When military units and aircraft move aggressively into the area surrounding the ship, they are attacked with powerful weapons from the alien ship (based on the assumption that star travelers wouldn't survive long without providing for their own protection against the spears and arrows of local savages) and the ship leaves with a powerful display of physical capabilities and disdain for the efforts to prevent their departure. A bizarre message is left at the landing spot that specifically names a person that the aliens wish to use as their sole contact, an obscure woman paleontologist and late Cretaceous period scholar, Edith Izzard. Contact with an advanced alien culture is viewed by Washington to have enormous economic and social consequences and importance. The resources of the federal government are turned to locating Edith and converting her to the governments "side" in dealings with the aliens. Edith is not easily convinced, or converted, to any side, especially as it becomes clear that if she does not cooperate she would forfeit her individual freedom and be coerced to do

the government's will. When an asteroid is discovered heading for the earth, the importance of the technology available to an advanced culture seems crucial, and Edith's cooperation ever more essential in utilizing the power of the alien science to avoid global disaster. Edith retains her freedom, establishes contact with the alien, K. Word of the impending asteroid collision leaks to the population of the world, and chaos builds. The entire civilization can't be saved, but a compromise is worked out in partnership with the former residents of the planet.

Firethorn, the first volume in an epic trilogy, is a stunning debut. Sarah Micklem has introduced an unforgettable heroine into the fantasy pantheon. Loving, reckless, and indomitable, Firethorn travels through an imaginary world as real as history and as marvelous as legend. Firethorn flees a life of drudgery to live alone in the forest, relying on her knowledge of herb lore to survive. She returns transformed, indebted to the god who saved her life, and blessed -- or cursed -- with uncanny abilities and a nagging sense of destiny. After a few nights of dalliance with Sire Galan, a high-caste warrior on his way to

join the king's army, Firethorn seizes the chance to go with him, only to find she has exchanged one form of servitude for another. The army readies for war in the vast encampment of the Marchfield, where men prey on each other and women dare go nowhere alone. Among the lowborn harlots and the highborn dames of the camp, Firethorn learns to use her gifts as a healer, venturing into realms of dream and shadow. Desire drew Firethorn and Sire Galan together, but love binds them -- a love that has no place in the arrangement between a warrior and his sheath. When Galan makes a wager with disastrous consequences, Firethorn uses her gifts to intervene in his fate and learns just how hard it can be to tell honor from dishonor, justice from vengeance. Sarah Micklem has written an extraordinary tale -- at once magical and earthbound, beautiful and violent. She immerses readers in a remarkably imagined world where gods are meddlesome, the highborn uphold their privileges with casual brutality, and a woman's only recourse may be the strength she finds within.

French writer—an intense, delicious meringue of a novella In a large country house shut off from the world by a gated garden, three young governesses responsible for the education of a group of little boys are preparing a party. The governesses, however, seem to spend more time running around in a state of frenzied desire than attending to the children's education. One of their main activities is lying in wait for any passing stranger, and then throwing themselves on him like drunken Maenads. The rest of the time they drift about in a kind of sated, melancholy calm, spied upon by an old man in the house opposite, who watches their goings-on through a telescope. As they hang paper lanterns and prepare for the ball in their own honor, and in honor of the little boys rolling hoops on the lawn, much is mysterious: one reviewer wrote of the book's "deceptively simple words and phrasing, the transparency of which works like a mirror reflecting back on the reader." Written with the elegance of old French fables, the dark sensuality of Djuna Barnes and the subtle comedy of Robert Walser, this semi-deranged erotic fairy tale introduces American readers to the marvelous Anne Serre.

Waiting for Your Cat to Bark? Hypnotic Writing

Evolving from the premise that customers have always behaved more like cats than Pavlov's dogs, *Waiting for Your Cat to Bark?* examines how emerging media have undermined the effectiveness of prevailing mass marketing models. At the same time, emerging media have created an unprecedented opportunity for businesses to redefine how they communicate with customers by leveraging the power of

increasingly interconnected media channels. Bryan and Jeffrey Eisenberg don't simply explain this shift in paradigm; *Waiting for Your Cat to Bark?* introduces Persuasion Architecture™ as the synthetic model that provides business with a proven context for rethinking customers and retooling marketers in a rewired market. Readers will learn: Why many marketers are unprepared for today's increasingly fragmented, in-control, always-on audience that makes pin-point relevance mandatory How interactivity has changed the nature of marketing by extending its reach into the world of sales, design, merchandizing, and customer relations How Persuasion Architecture™ allows businesses to create powerful, multi-channel persuasive systems that anticipate customer needs How Persuasion Architecture™ allows businesses to measure and optimize the return on investment for every discreet piece of that persuasive system "There's some big thinking going on here-thinking you will need if you want to take your work to the next level. 'Typical, not average' is just one of the ideas inside that will change the way you think about marketing." ?Seth Godin, Author, *All Marketers Are Liars* "Are your clients coming to you armed with more product information than you or your sales team know? You need to read *Waiting for Your Cat to Bark?* to learn how people are buying in the post-Internet age so you can learn how to sell to them." ?Tom Hopkins, Master Sales Trainer and Author, *How to Master the Art of Selling* "These guys really 'get it.' In a world of know-it-all marketing hypesters, these guys realize that it takes work to persuade people who aren't listening. They've connected a lot of the pieces that we all already know-plus a lot that we don't. It's a rare approach that recognizes that the customer is in charge and must be encouraged and engaged on his/her own terms, not the sellers. *Waiting for Your Cat to Bark?* takes apart the persuasion process, breaks down the steps and gives practical ways to tailor your approaches to your varying real customers in the real world. This book is at a high level that marketers better hope their competitors will be too lazy to implement." ?George Silverman, Author, *The Secrets of Word of Mouth Marketing: How to Trigger Exponential Sales Through Runaway Word of Mouth* "We often hear that the current marketing model is broken-meaning the changes in customers, media, distribution, and even the flatness of the world make current practices no longer relevant. Yet few have offered a solution. This book recognizes the new reality in which we operate and provides a path for moving forward. The authors do an outstanding job of using metaphors to help make Persuasion Architecture clear and real-life examples to make it come alive. Finally, someone has offered direction for how to market in this new era where the customer is in control." ?David J. Reibstein, William Stewart Woodside Professor, Wharton Business School of the

University of Pennsylvania and former Executive Director, Marketing Science Institute "If you want to learn persistence, get a cat. If you want to learn marketing, get this book. It's purrfect." ?Jeffrey Gitomer, Author, *The Little Red Book of Selling* Firethorn Simon and Schuster Praise for *Buying Trances* "The genius of Joe Vitale has never shone brighter. This thoroughly documented and easy-to-read book is the first of its kind. Vitale gives you the keys to their minds. All you have to do is turn the keys. They said 'yes' to you long before you said a word and they were begging to buy from you shortly after you uttered your first sentence. *Buying Trances* is an exciting ride to the edge of the mind. His finest work to date." -Kevin Hogan, author, *The Psychology of Persuasion and Covert Hypnosis* "This book maps marketing's final frontier-the customer's mind-and exposes the buying trance. Frankly, this may be the smartest marketing book ever written." -Dave Lakhani, coauthor, *Persuasion: The Art of Getting What You Want* "As with all of Vitale's books, there are magical secrets chucked out like a mad Vegas poker dealer on every page. Not only will you learn to put people into buying trances with this book, the act of reading it will put you in a trance and force you to master it." -Mark Joyner, #1 bestselling author, *The Irresistible Offer: How to Sell Your Product or Service in 3 Seconds or Less* "Vitale's expertise in hypnotic marketing combined with his extensive research challenges the reader on many different levels. He forces you to delve deeper into the benefits of creating a buying atmosphere and a trance-like desire on the part of your prospect. I found this an absolutelyfascinating book." -Joseph Sugarman, President, BluBlocker Corporation "Buying Trances is not your run-of-the-mill marketing book. It's an exceptionally well-written, well thought out, high-level work that gives the reader unique insights into how to capture a prospect's attention. Cutting-edge stuff that is a must for every serious marketer to absorb and implement." -Robert Ringer, author, *To Be or Not to Be Intimidated?: That Is the Question* "Vitale's understanding of how and why people think and act like they do is remarkable. Byunscrambling complex ideas and explaining them in simple language, he reveals how to fashion messages that will turn people into compulsive buyers of our products and services. Now we can take control and create the buying trance. It's a totally refreshing and very effective approach to hugely profitable sales and marketing!" -Winston Marsh, veteran Australian marketer
