Russia is divided into seven federal districts encompassing 89 units -- regions (oblasts), territories (krais), and republics. As central power has weakened, the importance of these units and their local leadership has increased commensurately. This work brings together in one volume all basic political, economic, and demographic data on every territorial unit of the Russian Federation, its local government structure, and electoral history current through the spring 2000 elections and the summer 2000 reorganization. Each entry includes an extensive profile of the president, governor, or prime minister, and an overview of local political trends, policies, economy, and business conditions.

"This novel should come not with blurbs but with a hazardous-material warning: There's bone and gristle here, be ready for that taste in your mouth you can't spit out. First words to last, it's strong stuff." —James Sallis, author of Drive The first novel to appear in English by the "subway janitor by night, novelist by day," who began his writing career while an undocumented immigrant in the United States, Like Flies from Afar will demonstrate why K. Ferrari is already an award-winning star of international crime fiction. A hardboiled noir thriller, a whodunit, a black comedy, and a filthy catalog of the excesses of wealth, this is a Jim Thompson novel for the globalized world. Mr. Luis Machi is an unforgettably loathsome and hilarious Argentinian oligarch who made his fortune collaborating with the worst elements of society—parasites, pushers, and secret policemen. He has a cocaine habit, a collection of three hundred ties, ten million dollars in the bank, and a bloody corpse in the trunk of his BMW . . . but as far as the body goes, he's completely innocent. He has no idea who the victim could be, or who among his many,

many enemies might be trying to frame him for murder, and he doesn't have much time to find out . . . The profane and uproarious Like Flies from Afar follows Machi through twenty-four hours of his eventful life—one full day in which to solve this mystery, or at least to make sure he isn't the one to take the fall.

Title first published in 2003. Shamanism has a contradictory position within the Korean cultural system, leading to the periodical suppression of shamanism yet also, paradoxically, ensuring its survival throughout Korean history. This book examines the place of shamans within contemporary society as a cultural practice in which people make use of shamanic ritual and disputing the prevalent view that shamanism is 'popular culture', a 'women's religion' or 'performing arts'. Directly confronting the prejudice against shamans and their paradoxical situation in a modern society such as Korea, this book reveals the cultural discrepancy between two worlds in Korean culture, the ordinary world and the shamanic world, showing that these two worlds cannot be reconciled. This unique study of shamanism offers a significant contribution to growing studies in indigenous anthropology and indigenous religions, and provides a captivating read for a wide range of readers through retelling the stories-never-to-be-told involving shamanic ritual.

In 1962, South Korea assembled just 1,100 new automobiles. By 1996, this total had soared to 2,812,714. What explains this remarkable growth? The answer is complex, and involves a combination of a supportive State, timely technology alliances, a skilled but historically low-paid workforce, aggressive pricing, savvy entrepreneurs, and fortuitous circumstances. Despite this amazing ascent, comparatively little has been written about the Korean auto industry in English. In the first of a two-volume set, this 11-chapter book seeks to help fill this void by providing in-depth examinations of all six of Korea's automakers from their beginnings through 1996. Uniquely written from the perspective of industry analysts at the time (without knowledge of the Asian Fiscal Crisis), the book should prove informative to practitioners, scholars, and students interested in automotive history, international political economy, Asian studies, and more. " The reason you love Jamie (or are about to) is because she says exactly what the rest of us are thinking, but we're too afraid to upset the apple cart. She is a voice for the outlier, and we're famished for what she has to say. " --Jen Hatmaker, New York Times bestselling author of Of Mess and Moxie and For the Love Wildly popular blogger "Jamie the Very Worst Missionary" delivers a searing, offbeat, often hilarious memoir of spiritual disintegration and reformation. As a quirky Jewish kid and promiscuous punkass teen, Jamie Wright never imagines becoming a Christian, let alone a Christian missionary. She is barely an adult when the trials of motherhood and marriage put her on an unexpected collision course with Jesus. After finding her faith at a suburban megachurch, Jamie trades in the easy life on the cul-de-sac for the green fields of Costa Rica. There, along with her family, she earnestly hopes to serve God and change lives. But faced with a yawning culture gap and persistent shortcomings in herself and her fellow workers, she soon loses confidence in the missionary enterprise and falls into a funk of cynicism and despair. Nearly paralyzed by depression, yet still wanting to make a difference, she decides to tell the whole, disenchanting truth: Missionaries suck and our work makes no sense at all! From her sofa in Central America, she launches a renegade blog, Jamie the Very Worst Missionary, and against all odds wins a large and passionate following. Which leads her to see that maybe a "bad" missionary--awkward, doubtful, and vocal—is exactly what the world and the throngs of American do-gooders need. The Very Worst Missionary is a disarming, ultimately inspiring spiritual memoir for well-intentioned contrarians everywhere. It will appeal to readers of Nadia Bolz-Weber, Jen Hatmaker, Ann Lamott, Jana Reiss, Mallory Ortberg, and Rachel Held Evans.

What drives a Caribbean man to pack his meager belongings, pick up his young family, and get on a plane bound for the Philippines, knowing that he has only enough money to get to New York? What makes him believe that they can survive in that distant country for three years when he doesn't even have enough money to get there in the first place? The answer is conviction—a strong conviction based on several miracles, such as a mysterious old bent-over Vincentian woman appearing from nowhere and telling him to his face that he should become a pastor!

Through Miracles to Ministry traces a long and often exciting journey marked by providential situations and supernatural events in the author's life. American business folklore is awash with the adventures of successful entrepreneurs. Still, most of these stories are about Americans, neglecting important and courageous entrepreneurs from other countries. Made in Korea recounts the story of how Chung Ju Yung rose from poverty to build one of the world's largest and most successful building empires - Hyundai - through a combination of creative thinking, tenacity, timing, political skills, and a business strategy that few competitors ever understood. Chung entered the shipbuilding business with no experience and went on to create the world's largest shipyard. He began making automobiles when foreign experts unanimously predicted he would fail, and he started a global construction company that has built some of

today's greatest architectural wonders. He even convinced the International Olympic Committee to select South Korea over Japan as the site for the highly successful 1988 Olympics. Unlike most CEO's of major firms, Chung has always preferred the company of his workers to that of the global executive elite. Hard work, creativity and a capacity to never give up - this is the essence of Chung's life. In each of his ventures, he exhibited a sheer determination to succeed, regardless of the obstacles, and he worked tirelessly to instill this drive in all of his employees. Even today, in the midst of Korea's worst economic crisis in over four decades, Chung's company is busy implementing plans to emerge as an even stronger contender in the world economy. Illustrated with 32 pages of colour photographs not previously seen in the West, including photos of Chung's recent historic visit to North Korea in 1998, Made in Korea takes stock of Chung's entire life, highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs.
