Women's Studies is a field that inspires strong reactions, both positive and negative, inside and

outside of the classroom. The field, partly due to its activist origins, is often associated with liberal ideology and is therefore chided by students and others who identify as conservative. The goal of this book is to introduce conservative perspectives into the issues of gender, sexuality, race, and power that are topics of teaching and discussion in women's studies courses. The book also aims to provide examples of pathways by which conservative students and scholars can engage the field of women's studies, not as opponents, but as contributors. Contributors including administrators, activists, scholar-teachers, artists, and ministers come together in this collection to engage in writing and response and to add their approaches to teaching and administering women's studies on their campuses.

Download for FREE with Kindle Unlimited This is a 8,000 words (around 45 kindle pages) EROTIC stand-alone story with an HEA, so no cliff-hangers! Murton Brooks does not want to be a billionaire. His father's form of capitalism disturbs and upsets him. He pens his letter of resignation and leaves his father's company. He finds himself in an Amish community, taken in by the beautiful Agatha, whose mother is on the council of elders. Murton believes he has finally escaped the world he so loathes. But when Agatha's mother makes a big announcement, and Agatha and Murton discover the truth behind it...he discovers that he wasn't done with his father's world. Not in the slightest.

-----EXCERPT FROM BOOK Patricia Steaner smoothed out the creases of her gray frock that reached from her chin down to he rankles. Many times throughout her life, she had thought about what it might be like to leave the little Amish world into which she had been born. Patricious thought it might be nice to wear tank tops and buy butter in plastic containers from the store. To have conveniences at times seemed worth losing what she had. But as Patricia aged, she learned a valuable lesson. Out there in the wild, wide world, she was a small person, and always would be a small person. Patricia had ambition, which is what had in her younger years, lead her to believe that she would eventually leave her small community and go on to bigger, grander things. What Patricia eventually realized is that it was much better to be a big fish in a small pond, at least for awhile, which is why at the age of forty-five, she was still a member of the amish community. Her ambitions were about to be realized. She was going to extend her influence past the amish community, which was mostly under her thumb already, and to Pennsylvania at large. For nearly five years, Patricia had been the head elder on the council, the youngest ever to hold the position, and had wielded more power than any head elder before her. It was traditionally a figurehead position, that was on par with all the other elders, not ahead of them in any way. Patricia pushed these norms again and again. She used intimidation, coercion, and generally manipulated the softly stipulated rules and norms of amish society to her advantage. It was a society with many rules, but not many punishments that Patricia feared. The system was supposed to spit out people like Patricia. They were supposed to choose to leave of their own accord when given the chance, but Patricia was gaming the system.

### The Mind-Bending Truths about a Life with Purpose. She Writes Press

"Is there life after the internet? A woman who has recently been elevated to prominence for her social media posts travels around the world to meet her adoring fans. She is overwhelmed by navigating the new language and etiquette of what she terms "the portal," where she grapples with an unshakable conviction that a vast chorus of voices is now dictating her thoughts. When existential threats--from climate change and economic precariousness to the rise of an unnamed dictator and an epidemic of loneliness--begin to loom, she posts her way deeper into the portal's void. An avalanche of images, details, and references accumulate to form a landscape that is post-sense, post-irony, post-everything. "Are we in hell?" the people of the portal ask themselves. "Are we all just going to keep doing this until we die?" Suddenly, two texts from her mother pierce the fray: "Something has gone wrong," and "How soon can you get here?" As real life and its stakes collide with the increasingly absurd antics of the portal, the woman confronts a world that seems to contain both an abundance of proof that there is goodness, empathy, and justice in the universe, and a deluge of evidence to the contrary"--

Madeleine L'Engle's *A Wrinkle in Time* has captured the imagination of millions - from literary sensation to timeless classic and now a major motion picture starring Oprah Winfrey, Reese Witherspoon, Storm Reid, and Mindy Kaling. *A Light So Lovely* tells the story of the woman at the center of it all - her imagination, her faith, her pattern of defying categories, and what readers today can learn from her legacy. Bestselling and beloved author Madeleine L'Engle, Newbery winner for *A Wrinkle in Time*, was known the world round for her imaginative spirit and stories. She was also known to spark controversy - too Christian for some, too unorthodox for others. Somewhere in the middle was a complex woman whose embrace of paradox has much to say to a new generation of readers today. *A Light So Lovely* paints a vivid portrait of this enigmatic icon's spiritual legacy, starting with her inner world and expanding into fresh reflections of her writing for readers today. Listen in on intimate interviews with L'Engle's literary contemporaries such as Philip Yancey and Luci Shaw, L'Engle's granddaughter Charlotte Jones Voiklis, and influential fans such as Makoto Fujimura, Nikki Grimes, and Sarah Bessey, as they reveal new layers to the woman behind the stories we know and love. A vibrant, imaginative read, this book pulls back the curtain to illuminate L'Engle's creative journey, her persevering faith, and the inspiring, often unexpected ways these two forces converged. For anyone earnestly searching the space between sacred and secular, miracle and science, faith and art, come and find a kindred spirit and trusted guide in Madeleine - the Mrs Whatsit to our Meg Murry - as she sparks our imagination anew.

*Sensing Sacred* is an edited volume that explores the critical intersection of "religion" and "body" through the religious lens of practical theology, with an emphasis on sensation as the embodied means in which human beings know themselves, others, and the divine in the world. The manuscript argues that all human interaction and practice, including religious praxis, engages "body" through at least one

of the human senses (touch, smell, hearing, taste, sight, kinestics/proprioception). Unfortunately, body—and, more specifically and ironically, sensation—is eclipsed in contemporary academic scholarship that is inherently bent toward the realm of theory and ideas. This is unfortunate because it neglects bodies, physical or communal, as the repository and generator of culturally conditioned ideas and theory. It is ironic because all knowledge transmission minimally requires several senses including sight, touch, and hearing. *Sensing Sacred* is organized into two parts. The first section devotes a chapter to each human sense as an avenue of accessing religious experience; while the second section explores religious practices as they specifically focus on one or more senses. The overarching aim of the volume is to explicitly highlight each sense and utilize the theoretical lenses of practical theology to bring to vivid life the connections between essential sensation and religious thinking and practice.

This book explores how polarised interpretations of America's past influence the present and vice versa. A focus on competing Protestant reactions to President

Trump's 'Make America Great Again' slogan evidences a fundamental divide over how America should remember historical racism, sexism and exploitation. Additionally, these Protestants disagree over how the past influences present injustice and equality. The 2020 killing of George Floyd forced these rival histories into the open. Rowley proposes that recovering a complex view of the past, confessing the bad and embracing the good, might help Americans have a shared memory that can bridge polarisation and work to secure justice and equality. An accessible and timely book, this is essential reading for those concerned with the vexed relationship of religion and politics in the United States, including students and scholars in the fields of Protestantism, history, political science, religious studies and sociology.

A surprising take on how you can help tackle the really big problems in society—from one of America's most successful entrepreneurs. People are looking for a better way. Towering barriers are holding millions of people back, and the institutions that should help everyone rise are not doing the job. Crumbling communities. One-size fits all education. Businesses that rig the economy. Public policy that stifles opportunity and emboldens the extremes. As a result, this country is quickly heading toward a two-tiered society. Today's challenges call for nothing short of a paradigm shift – away from a top-down approach that sees people as problems to be managed, toward bottom-up solutions that empower everyone to realize their potential and foster a more inclusive society. Such a shift starts by asking: What would it mean to truly believe in people? Businessman and philanthropist Charles Koch has devoted his life to answering that question. Learn what he's discovered during his 60-year career to help you apply the principles of empowerment in your life, in your business, and in society. By learning from the social movements and applying the principles that have enabled social progress throughout history, Koch has achieved more than he dreamed possible – building one of the world's most successful companies and founding Stand Together, one of America's most innovative philanthropic communities. Stand Together CEO Brian Hooks and Koch show how the only way to solve the really big problems – from poverty and addiction to harmful business practices and destructive public policy – is for each and every one of us to find and take action in our unique role as part of the solution. Full of compelling examples of what works – including several first-person accounts from individuals whose lives have been transformed – Koch and Hooks' refreshing approach promotes partnership instead of partisanship and speaks to people from different perspectives and all walks of life. They show that no injustice is too tough to overcome if you share a deep belief in people, are willing to unite with anyone to do right, and work to empower others from the bottom up.
