Winner of the Pulitzer Prize “A masterwork . . . the novel astonishes with its inventiveness . . . it is nothing less than a grand comic fugue.”—The New York Times Book Review A Confederacy of Dunces is an American comic masterpiece. John Kennedy Toole's hero, one Ignatius J. Reilly, is "huge, obese, fractious, fastidious, a latter-day Gargantua, a Don Quixote of the French Quarter. His story bursts with wholly original characters, denizens of New Orleans' lower depths, incredibly true-to-life dialogue, and the zaniest series of high and low comic adventures" (Henry Kisor, Chicago Sun-Times).

From a public health perspective, motor vehicle crashes are among the most serious problems facing teenagers. Even after more than six months of being licensed to drive alone, teens are two to three times more likely to be in a fatal crash than are the more experienced drivers. Crash rates are significantly higher for male drivers, and young people in the United States are at greater risk of dying or being injured in an automobile than their peers around the world. In fact, in 2003 motor vehicle crashes was the leading cause of death for youth ages 16-20 in the United States. Understanding how and why teen motor vehicle crashes happen is key to developing countermeasures to reduce their number. Applying this understanding to the development of prevention strategies holds significant promise for improving safety but many of these efforts are thwarted by a lack of evidence as to which prevention strategies are most effective. Preventing Teen Motor Crashes presents data from a multidisciplinary group that shared information on emerging technology for studying, monitoring, and controlling driving behavior. The book provides an overview of the factual information that was presented, as well as the insights that emerged about the role researchers can play in reducing and preventing teen motor crashes.

"'Can I borrow the car' How to partner with your teen for safe driving" is an e-book about how parents can influence teenagers to learn safe driving habits written by Susan Tordella, who taught all four teens how to drive automatic and stick shift vehicles. Susan is also the author of "Raising Able: How chores empower families"

where she shares wisdom gleaned from a decade of leading parenting workshops and 25 years of raising four successful children by using Adlerian psychology. The book has two objectives: 1. To share suggestions on how parents can relate positively to their teens so that, 2. Teens will listen to them and follow the safe driving habits and keep them out of accidents. "Can I borrow the car?" gives specific safety habits your teen can use to avoid accidents that are useful and easy to learn, useful for adults and teenage drivers. Susan uses stories to show how to partner with your teen to insure they drive safely. Her true stories include three accidents caused by her teens and weren't fatal, give Susan credibility. Accidents happen. This short book, full of suggestions on how to relate to your teen positively and avoid alienating him or her, may prevent accidents, show your teenagers that you expect them to drive responsibly, and possibly prevent a fatal accident. Susan recommends the use of family meetings to set up a mutually respectful relationship for life with your teenager, which may influence him or her to follow the safe driving habits you will teach and model. Modeling the safe driving habits is more powerful than talking about them. Susan encourages parents to talk about teen accidents published in the media to promote awareness and prevent accidents. Readers will learn how to use encouragement - how to notice what you like to get more of it, instead of being critical, sarcastic or complaining. This short, to-the-point guide on how to encourage teens to learn safe driving habits teaches parents how to take a positive attitude and be a good role model to promote safe driving. Much is at stake with new drivers. The rate of accidents among teenage drivers newly licensed is higher than the rate of any other age group. At the end of the book is a one page Teen Safe Driving Contract, another tool to raise awareness and promote communication with teens that driving has life and death consequences.

In spite of better-engineered vehicles and roads, traffic accidents are increasing. Why? Drivers are now better prepared and trained. Accidents are also mostly preventable if only drivers learn defensive driving and accident avoidance techniques. It teaches among other things, to be helpful, courteous, and defensive regardless of who is at fault but who has the last clear chance to avoid the accident. It’s easy to learn and to execute. Without knowledge of defensive driving and accident avoidance techniques, that person is considered half a driver. We can’t continue the carnage in the roads; it’s expensive and can result in losing health and/or life. In this book, 1001 Ways to Drive Defensively, for your safety and driving enjoyment, the ideas are sometimes repeated because driving is a repetition of the same maneuvers for any trip made. To help remember the procedures, it is presented in different ways. It is also not organized chronologically because when we are behind the wheel, things don’t happen in logical order; the situations and circumstances do dictate. The author has a bachelor’s degree in education. He has been a North American driver for almost fifty years, most of which were in Cold Alberta, Canada, where winter could last for six months. You guessed it—lots of traffic accidents. Thus, the knowledge of defensive driving was a must. In Alberta, he was a schoolteacher, operated a driving school, a driving instructor and driver examiner. Author urges safety-conscious individuals not to wait any longer; get a copy of 1001 Ways to Drive Defensively. It makes driving enjoyable, less stressful, and most of all, you’ll experience safety whenever you are behind the wheel. Don’t forget you’re protecting the most expensive thing that was created, and no amount of money can replace it. This book is suitable for all drivers. However, discretion is necessary; you might save one or two accidents in what is left of your driving days. We all have to pitch in and help make the roads safer. No government can do it alone. We must not forget that other drivers are our friends we haven’t met. Why don’t we help them and, in the process, help ourselves too? In an accident, regardless of who is at fault, we’ll still suffer the same consequences. It takes only a second or two to help versus days or months recuperating. Some drivers make this statement, “whatever I do, if other drivers make a mistake what can I do?” Drivers that have this kind of reasoning forget that to be safe, one does not only drive their vehicle, follow traffic rules, but help other driver if they make a mistake. Apply defensive driving technique if one notices a condition that can develop into vehicle conflict. This book will make a perfect gift for anybody, for any

occasion and they will be grateful and remember you for life.
