Would you kill someone to save yourself? Jessie Doyle, a twenty-three-year-old college graduate, never believed she would until she became trapped in her own life-threatening dilemma. From the moment they met, Luke Rogers knew he'd one day possess Jessie's soul. He set out and accomplished just that. Blinded by love, Jessie was tangled tighter in his web of deceit. After months of psychological and physical abuse, being held captive by the threat he'd kill her if she ever left him, and the loss of her unborn child at the hands of his assault, Jessie devised a desperate plan to escape. Convinced Luke would kill her, Jessie realized the only way she'd ever be free would be to kill him—first. Finally, he was dead. But who really killed Luke Rogers? Consumed with guilt, Jessie left the horrors of her hometown. When she took a job in northern Vermont, she thought she was leaving her old life behind. But someone followed her who believes he knows the truth. Accident or not, Jessie must have played some part in killing Luke. And she should suffer for that—in fact, she should die. To save herself, Jessie must uncover the stalker's identity. But what will she do when she knows? She has to protect the secret and keep herself from being murdered in the process. In doing so, she may be involved in killing someone—for the second time. In *Hush Little Baby, Don't You Cry* you'll be seized on page one and held spellbound to the end as Bobbie J.A. Pfeifer takes you on a breathtaking journey into the world of a tortured young woman who's desperate to regain her life.

Included on BookBub 's "The Most Exciting Memoirs Coming Out in 2018" list Krishan Bedi came to the United States in December of 1961 at the tender age of twenty. He had only \$300 in his pocket, and he had made it out of his small village in India on sheer faith, determined to get education in the US. For him, there was no option but to succeed—so he began his new life in Knoxville, Tennessee, where he had to adapt to the culture shock not only of being in the US but a Punjabi man in the South in the 1960s. *Engineering a Life* is an examination of Bedi 's life, and how he has handled the plethora of curve balls thrown his way with determination, humor, and an unwavering faith that everything would work out. This is a book about values and faith and the importance of friendship, family, and hard work. It 's a story about achieving the American Dream, proving that no matter how thoroughly you map out your life 's journey, no matter how many blueprints you draw up, when you veer off the course you 've plotted—as we all do, somehow, in the end—you end up where you 're supposed to be.

A brilliant transplant surgeon brings compassion and narrative drama to the fearful reality that every doctor must face: the inevitability of mortality. "Uncommonly moving ... A revealing and heartfelt book." —Atul Gawande, #1 New York bestselling author of *Being Mortal* When Pauline Chen began medical school, she dreamed of saving lives. What she could not predict was how much death would be a part of her work. Almost immediately, she found herself wrestling with medicine's most profound paradox—that a profession premised on caring for the ill also systematically depersonalizes dying. Final Exam follows Chen over the course of her education and practice as she struggles to reconcile the lessons of her training with her innate sense of empathy and humanity. A superb addition to the best medical literature of our time.

Driving is a privilege and not a right. Drivers must drive responsibly and safely, obey traffic laws, and never drink and drive. Finally, make sure that you and your passengers are properly buckled up - it's the law! Today's vehicles are loaded with technology that was unheard of even a decade ago. Systems that warn when you are drifting from your lane, assist you in parallel parking, automatically brake in emergency situations and provide 360 degrees of vision around the vehicle via a camera are becoming standard, even on moderately priced vehicles. As remarkable as these leaps in automotive technology are, the truth is that the most important safety feature in any vehicle remains you as the driver. Therefore, it is to your benefit to continue improving and expanding your knowledge of traffic laws and safe driving practices. Driving is a privilege. Once you have been issued a driver's license, you have the responsibility to continually demonstrate the skill and knowledge to drive safely. Whether you have been behind the wheel for decades or are just starting to venture out, driving is a discipline that requires judgment, knowledge, physical and mental self-awareness, and practice. "What Every Driver Must Know" is an excellent resource for assisting you on this lifelong journey.

Final Exam A Memoir is a fascinating and witty story of an active and observant pilgrim in the middle of the Twentieth Century. The author, David Wilson, Professor Emeritus, at the University of California Los Angeles, reveals in detail his memories throughout his life. Peripatetic from the start he was born in Rockford, IL., grew up to ten in La Grange; then lived a few years in upstate New York and Toledo, OH. He served in the US Navy in WW II. In the subsequent years he traveled widely and was swept into the struggle against McCarthyism and the turbulence on campuses in the 1960s. The memoir also throws light on the growth of foreign area studies, particularly Southeast Asia, where he lived for many years. As a professor he was not only active in teaching and research but also in university politics and administration. Professor Wilson is the author of books and articles about Thailand and also about higher education. The story will be interesting to the author's contemporaries as well as younger readers.
