Included on BookBub's "The Most Exciting Memoirs Coming Out in 2018" list Krishan Bedi came to the United States in December of 1961 at the tender age of twenty. He had only \$300 in his pocket, and he had made it out of his small village in India on sheer faith, determined to get education in the US. For him, there was no option but to succeed—so he began his new life in Knoxville, Tennessee, where he had to adapt to the culture shock not only of being in the US but a Punjabi man in the South in the 1960s. Engineering a Life is an examination of Bedi's life, and how he has handled the plethora of curve balls thrown his way with determination, humor, and an unwavering faith that everything would work out. This is a book about values and faith and the importance of friendship, family, and hard work. It's a story about achieving the American Dream, proving that no matter how thoroughly you map out your life's journey, no matter how many blueprints you draw up, when you veer off the course you've plotted—as we all do, somehow, in the end—you end up where you're supposed to be.

One of Julio Cortázar's great early novels. "Anyone who doesn't read Cortázar is doomed."—Pablo Neruda In its characters, themes, and preoccupations, *Final Exam* prefigures Cortázar's later fictions, including *Blow-Up* and his masterpiece, *Hopscotch*. Written in 1950 (just before the fall of Perón's government), it is Cortázar's allegorical, bitter, and melancholy farewell to an Argentina from which he was about to be permanently self-exiled. (Cortázar moved to Paris the following year.) The setting of *Final Exam* is a surreal Buenos Aires, dark and eerie, where a strange fog has enveloped the city to everyone's bewilderment. Juan and Clara, two students, meet up with their friends Andrés and Stella, as well as a journalist friend they call "the chronicler." Juan and Clara are getting ready to take their final exams, but instead of preparing, they wander the city with their friends, encounter strange happenings in the squares and ponder life in cafés. All the while, they are trailed by the mysterious Abel. With its daring typography, its shifts in rhythm as well as in the wildly veering directions of its characters' thoughts and speech, *Final Exam* breaks new ground in the territory of stream-of-consciousness narrative techniques. It is considered one of Cortázar's best works.
