In typical A Criminal Love fashion, Kayman and Lane are still doing their thing. The two have settled into their life together, and after the birth of their daughter, Kennedy, things finally feel complete. Wanting to branch off on her own and get back to her roots, Lane starts her own photography business, which is the perfect way for her to spread her wings, while keeping her daughter close. With Kayman, it's business as usual. Although he, Karter, King, Royal, and Shine are slowly transitioning themselves to do less, when duty calls, Kayman has to answer. What the two don't expect is all of the twists and turns that life is about to throw at them. Kayman and Karter's father has created a problem for the whole family, that could cause Karter to have to take his own father's life or possibly lose his own. Not to mention, their mother and sister might be at risk as well. Add in the fact that Kay's business connections put Lane in a delicate situation, and Kayman has his hands full trying to balance life at home and in the streets. The gang's still going strong, but Lane and Kay have to stick together and depend on each other in order to survive everything that's forcing its way into their world. Through it all, Lane realizes that loving a street king isn't always easy.

Who needs a website these days? Let's see-- are you a human person existing in the world and breathing oxygen? If so, you probably need a website. In this guide, Lori Culwell (author of several other exciting books about websites) will break down the website building process step by step, stopping along the way to make you laugh. Here's what this guide covers: 1. Keyword research, which you should totally do before you start any project, unless you want Google to completely ignore your website. 2. Buying domains. You are probably overpaying. This is not your fault. 3. Picking the right kind of hosting (no matter what hosting company you use). There is one obvious choice that will save you a ton of money. 4. Installing Wordpress on your domain, unless you would rather pay someone \$1,000 to do this for you. Oh, and did you know that there is absolutely no need for you to code your own website anymore? In fact, Google would prefer if you did not. Setting up your Wordpress installation so that your website does exactly what you want it to do. Coming up with things to write about that will actually get your website to rank in Google. The overall purposes of this guide are: 1) to teach you a bunch of stuff about websites that will actually save you a ton of money, both now and over the years, whether or not you choose to work with designers and developers, and 2) to make you laugh along the way. What this guide is NOT going to teach you: This is not a web design guide. Themes (both paid and free) will be discussed, but you are encouraged to take all the money you saved during this setup process and hire someone to make your website look exactly the way you want it. This is not a hard-core developer guide. That is to say, you don't have to know how to code anything to get through this book, and you are not going to learn that.

When I was twenty-five years old, it came to my attention that I had never had a girlfriend. At the time, I was actually under the impression that I was in a relationship, so this bit of news came as something of a shock. Why was Josh still single? To find out, he tracked down each of the girls he had tried to date since middle school and asked them straight up: What went wrong? The results of Josh's semiscientific investigation are in your hands. From a disastrous Putt-Putt date involving a backward prosthetic foot, to his introduction to CFD (Close Fast Dancing), and a misguided "grand gesture" at a Miss America pageant, this story is about looking for love--or at least a girlfriend--in all the wrong places. Poignant, relatable, and totally hilarious, this memoir is for anyone who has ever wondered, "Is there something wrong with me?" (Spoiler Alert: the answer is no.)

"Jenny made me laugh so hard I feared for my safety! I think that's how she was able to get past my defenses and make me feel more okay about myself." --Allie Brosh, author of *Hyperbole and a Half* For fans of David Sedaris, Tina Fey, and Mindy Kaling--the new book from Jenny Lawson, author of the #1 New York Times bestseller *LET'S PRETEND THIS NEVER HAPPENED...* In *LET'S PRETEND THIS NEVER HAPPENED*, Jenny Lawson baffled readers with stories about growing up the daughter of a taxidermist. In her new book, *FURIOUSLY HAPPY*, Jenny explores her lifelong battle with mental illness. A hysterical, ridiculous book about crippling depression and anxiety? That sounds like a terrible idea. And terrible ideas are what Jenny does best. According to Jenny: "Some people might think that being 'furiously happy' is just an excuse to be stupid and irresponsible and invite a herd of kangaroos over to your house without telling your husband first because you suspect he would say no since he's never particularly liked kangaroos. And that would be ridiculous because no one would invite a herd of kangaroos into their house. Two is the limit. I speak from personal experience. My husband says that none is the new limit. I say he should have been clearer about that before I rented all those kangaroos." "Most of my favorite people are dangerously fucked-up but you'd never guess because we've learned to bare it so honestly that it becomes the new normal. Like John Hughes wrote in *The Breakfast Club*, 'We're all pretty bizarre. Some of us are just better at hiding it.' Except go back and cross out the word 'hiding.'" Jenny's first book, *LET'S PRETEND THIS NEVER HAPPENED*, was ostensibly about family, but deep down it was about celebrating your own weirdness. *FURIOUSLY HAPPY* is a book about mental illness, but under the surface it's about embracing joy in fantastic and outrageous ways--and who doesn't need a bit more of that?
