I don't know how I have taught reading to high school students without discovering this book before. It speaks to my particular passion - teaching struggling

older students to read, understand what they read and enjoy what they read. I am writing and highlighting all over the pages of the book and have sticky notes marking many pages.

Hebbian theory  
When you read something, your brain is connecting the contents of your memory either in a new, or at least less-frequently used way.

If you think that you are one of the few who suffer from this, and that most well-read people don't, then I have only one thing to tell you...
