The Great Minds of Investing ASCD
Do you want to get to the stage - soon - where you are truly financially independent, able to use your money in the way you'd like, and be completely confident in your ability to take care of yourself and your family? That is a universal desire, but many of us regard wealth and financial independence as a goal which we'll likely never achieve - there are just too many bills that need paying and there is a widespread belief that the money game is rigged. Even people who win the lottery or inherit money often seem to wind up losing it. The evidence suggests you can't win a game that you don't understand - even if you start out winning - because you never understood the game in the first place. So how can you win with money? How can you create independent wealth and hold on to it? This inspiring book by self-made multi-millionaire Rob Moore explains the rules of the game, shares simple tricks for managing money better, details how to create a plan for an ambitious future, and shows you the very best way to become a millionaire - to think and behave like one!

I am going to do something most authors would not want. As this isn't your usual book, I am therefore encouraging you to read the last chapter (Book 10) first! I know we all want to know the conclusion -- what happens at the end. So do it! Do it because doing so may well give you the context for helping you understand the rest of the book from Book 1 through Book 9! And then read Book 10 again. I didn't write this series of books to say once more what thousands of others have

already written... and gotten wrong! This is a narrative of a manager, struggling to do his job and to work effectively with his team/group, tossed out all he had been told and learned... and together, with those who worked with and for him, made some just pretty simple, common-sense changes that turned things around -- seemingly like MAGIC! And because what we did was just part of our daily work, the amazing changes felt like they happened overnight! Whether you're an experienced manager, a supervisor, team leader, a division head, an administrator/executive -- a CEO or a president - whether you're an employee or someone just starting out, there are thoughts and practices in this book that might just answer some questions you've had and help you be astoundingly successful! I know that latter statement can come across as perhaps over-the-top, but I and those who worked with and for me were able to make things happen that lots of people have talked about, but somehow remained out of reach. And, amazingly, it all happened as just part of the work we did every day -- and not through some special program. Some different ways of doing things and looking at issues/challenges that we ordinarily don't consider led to our turning things around and becoming highly productive where we worked together/collaborated so well. And what was probably most remarkable was that what took place seemed like it happened overnight! Written as a fascinating personal narrative that any manager, supervisor, employee, or executive anyone can identify with... This book is like flipping a switch!! And in telling this compelling story of how a manager, struggling to do his job and work with those in his group, BAM! HAD THAT BIG, GLARING LIGHT BULB GO ON -- SOMETIMES IT FELT MORE LIKE A HUGE LIGHTNING BOLT! and in making some simple changes which all of us can do, and do as part of the work we do every day -- CREATED A REMARKABLE PLACE OF HEART, CONNECTION, COMMITMENT, AND ASTOUNDING RESULTS! "Teach Your Job" and Watch It Happen Every Day!

"In the dark, bewildering, trap-infested jungle of misinformation and opaque riddles that is the world of investment, JL Collins is the fatherly wizard on the side of the path, offering a simple map, warm words of encouragement and the tools to forge your way through with confidence. You'll never find a wiser advisor with a bigger heart." -- Malachi Rempen: Filmmaker, cartoonist, author and self-described ruffian This book grew out of a series of letters to my daughter concerning various things—mostly about money and investing—she was not yet quite ready to hear. Since money is the single most powerful tool we have for navigating this complex world we've created, understanding it is critical. "But Dad," she once said, "I know money is important. I just don't want to spend my life thinking about it." This was eye-opening. I love this stuff. But most people have better things to do with their precious time. Bridges to build, diseases to cure, treaties to negotiate, mountains to climb, technologies to create, children to teach, businesses to run. Unfortunately, benign neglect of things financial leaves you open to the charlatans of the financial world. The people who make investing endlessly complex, because if it can be made complex it becomes more profitable for them, more expensive for us, and we are forced into their waiting arms. Here's an important truth: Complex investments exist only to profit those who create and sell them. Not only are they more costly to the investor, they are less effective. The simple approach I created for her and present now to you, is not only easy to understand and implement, it is more

powerful than any other. Together we'll explore: Debt: Why you must avoid it and what to do if you have it. The importance of having F-you Money. How to think about money, and the unique way understanding this is key to building your wealth. Where traditional investing advice goes wrong and what actually works. What the stock market really is and how it really works. Why the stock market always goes up and why most people still lose money investing in it. How to invest in a raging bull, or bear, market. Specific investments to implement these strategies. The Wealth Building and Wealth Preservation phases of your investing life and why they are not always tied to your age. How your asset allocation is tied to those phases and how to choose it. How to simplify the sometimes confusing world of 401(k), 403(b), TSP, IRA and Roth accounts. TRFs (Target Retirement Funds), HSAs (Health Savings Accounts) and RMDs (Required Minimum Distributions). What investment firm to use and why the one I recommend is so far superior to the competition. Why you should be very cautious when engaging an investment advisor and whether you need to at all. Why and how you can be conned, and how to avoid becoming prey. Why I don't recommend dollar cost averaging. What financial independence looks like and how to have your money support you. What the 4% rule is and how to use it to safely spend your wealth. The truth behind Social Security. A Case Study on how this all can be implemented in real life. Enjoy the read, and the journey!
