*IATF 16949:2016 Automotive Quality Management System – ISO ...*

The automotive industry's IATF 16949:2016 consists of ISO 9001 plus additional requirements that, while not required for ISO 9001 certification, cover highly useful and desirable features that ISO 9001 mentions only by implication, if at all.

**IATF 16949 Certification - What Is the IATF 16949 Standard?**

On October 3rd, 2016 IATF 16949:2016 was published by the IATF and supersedes and replaces the current ISO/TS 16949, defining the requirements of a quality management system for organizations in the automotive industry.

IATF 16949 2016 Plus ISO ISO/TS 16949 from 2009, a technical specification for automotive sector quality management systems, has become one of the most widely used international standards in the automotive industry, harmonizing the different

assessment and certification systems in the global automotive supply chain.

IATF16949:2016 certified without ISO:9001:2015

The last official day to transition your ISO/TS 16949 management system to IATF 16949 was 14 September 2018. Even if you haven't started, it's never too late to adapt your quality management system and experience the benefits of the new standard. Though your certificate has now expired, BSI can still help you achieve certification.

**IATF 16949-2016 - AIAG**

ISO/TS 16949 is an ISO technical specification aimed at the development of a quality management system that provides for continual improvement,

---

emphasizing defect prevention and the reduction of variation and waste in the automotive industry supply chain and production. It is based on the ISO 9001 standard and the first edition was published in June 1999 as ISO/TS 16949:1999. It was prepared by the International Automotive Task Force and the "Technical Committee" of ISO. It harmonises the country

The IATF 16949:2016 Audit Guide and Checklist provides all the information necessary for an in-depth assessment of your ISO 9001:2015 / IATF 16949:2016 Quality Management System. It was written to help auditors conduct a process based audit and stresses process effectiveness as well as compliance.

The International Automotive Quality Standard IATF 16949 isn't a "stand alone" requirement. It simply adds requirements to ISO 9001:2015. If your worry is the cost to certify, then you might want to check with your chosen CB. They should do ONE audit and issue 2 certificates, one for

---

IATF and one for ISO. If they charge for more than one audit, you are being scammed.

IATF 16949:2016 vs. ISO/TS 16949:2009 Matrix

IATF 16949:2016 is the International Standard for Automotive Quality Management Systems.

IATF 16949 was jointly developed by The International Automotive Task Force (IATF) members and submitted to the International Organization for Standardization (ISO) for approval and publication.

The document is a common automotive quality system requirement based on ISO 9001, and customer specific requirements from the automotive sector.

What is IATF 16949? – A short overview

IATF 16949:2016, developed and operated by the International Automotive Task Force (IATF), is the global

technical specification and quality management standard for the automotive industry. Based on ISO 9001:2015, it was published in October 2016 and replaces ISO/TS 16949. It is designed to be used in conjunction with ISO 9001:2015 and contains supplemental requirements specific to the automotive industry rather than being a standalone QMS.
