Completely revised

new editions of the market-leading Chemistry textbooks for HL and SL, written for the new 2014 Science IB Diploma curriculum. Now with an accompanying four-year student access to an enhanced eText, containing simulations, animations, quizzes, worked solutions, videos and much more. The enhanced eText is also available to buy separately and works on desktops and tablets - [click here to watch a video to learn more](#). Follows the organizational structure of the new Chemistry guide, with a focus on the Essential Ideas, Understanding, Applications & Skills for complete syllabus-matching. Written by the highly experienced IB author team of Catrin Brown and Mike Ford, with additional e-features by Richard Thornley and David Moore, you can be confident that you and your students have all the resources you will need for the new Chemistry curriculum. Features: Nature of Science and ToK boxes throughout the text ensure an embedding of these core considerations and promote concept-based learning. Applications of the subject through everyday examples are described in utilization boxes, as well as brief descriptions of related industries, to help highlight the relevance and context of what is being learned. Differentiation is offered in the Challenge Yourself exercises and activities, along with guidance and support for laboratory work on the page and online. Exam-style assessment

opportunities are provided from real past papers, along with hints for success in the exams, and guidance on how to avoid common pitfalls. Clear links are made to the Learner profile and the IB core values. Table of Contents: Stoichiometric Relationships Atomic Structure Periodicity Chemical Bonding and Structure Energy istics/Thermochemistry Chemical Kinetics Equilibrium Acids and Bases Redox Processes Organic Chemistry Measurement and Data Processing

Theory of

Material for Higher Level and Standard Level is clearly identified and key terms are simply defined, with examples drawn from a wide range of international sources. Chapters open with a list of 'Starting points' that summarise essential concepts. Photographs, electron micrographs and full-colour illustrations complement the text, and

illustrate principles and processes in context. Topics and Options coverage accurately reflect the Objectives and Command terms in which syllabus assessment statements are phrased.

- Improve exam performance, with plenty of questions, including past paper exam questions -
- Link to Theory of Knowledge and provide

opportunities for cross-curriculum study - Stretch more able students with extension activities - Teach all the Options with additional content on the CD-ROM

Physics for the IB Diploma

This text offers an in-depth analysis of all topics covered in the IB syllabus, preparing students with the skills needed to succeed in the examination. Features include: clearly stated learning objectives at the start of each

section; quick questions throughout each chapter and accessible language for students at all levels.

Biology for the IB Diploma
Coursebook Anthem Press

Written by experienced teachers and school leaders with an in-depth understanding of teaching and assessments for the IB Sports, Exercise and Health Science SL and HL courses. This new TestPrep book in the Revise IB series helps students to familiarise themselves with the SEHS exams set by the International Baccalaureate. It provides information about the format of

the papers and the types of exam questions included. Students can practise answering the questions by writing directly into the book, just like they do in the exam. And, as they work through, there are strategies, hints and support for answering the questions PLUS fully worked solutions at the end. From some excellent and unique multiple choice questions for Paper 1 to invaluable advice from the experts on how to tackle Papers 2 and 3, this book provides essential exam practice support for students revising for their Sports, Exercise and Health Science exams. Students will... Understand what to expect from the SEHS exam papers such as

question types, how questions are assessed and how marks are assigned, plus information about the assessment objectives. See example answers to Paper 1, Paper 2 and Paper 3-style questions - with brand new, unseen sample answers to exam-style questions and answer analysis from the point of view of an examiner. Test themselves - with three complete sets of exam-style SEHS practice papers (the first set includes loads of additional tips, examiner commentary and support to guide students to achieve high marks; the second set has fewer helpful prompts; the last set has no additional help and is designed so students can have a go at themselves!). Check

answers - with fully-worked solutions in the back of the book. Practice exam papers are one of the best ways to make sure students feel confident, reassured and prepared for their exams. With full sets of exam-style papers to work through, Sports, Exercise and Health Science: Revise IB TestPrep Workbook is the perfect resource for students to use as part of their exam revision - whether this is before the mock exams or before the real thing.

Biology for the IB MYP 4 & 5 Test Prep Books
Learn the Secret to Success on the GCSE Biology Exam! Ever wonder why

learning comes so easily to some people? This remarkable workbook reveals a system that shows you how to learn faster, easier and without frustration. By mastering the hidden language of the subject and exams, you will be poised to tackle the toughest of questions with ease. We've discovered that the key to success on the GCSE Biology Exam lies with mastering the Insider's Language of the subject. People who score high on their exams have a

strong working vocabulary in the subject tested. They know how to decode the vocabulary of the subject and use this as a model for test success. People with a strong Insider's Language consistently: Perform better on their Exams Learn faster and retain more information Feel more confident in their courses Perform better in upper level courses Gain more satisfaction in learning The GCSE Biology Exam Vocabulary Workbook is different from

traditional review books because it focuses on the exam's Insider's Language. It is an outstanding supplement to a traditional review program. It helps your preparation for the exam become easier and more efficient. The strategies, puzzles, and questions give you enough exposure to the Insider Language to use it with confidence and make it part of your long-term memory. The GCSE Biology Exam Vocabulary Workbook is an awesome tool to use before a course

of study as it will help you develop a strong working Insider's Language before you even begin your review. Learn the Secret to Success! After nearly 20 years of teaching Lewis Morris discovered a startling fact: Most students didn't struggle with the subject, they struggled with the language. It was never about brains or ability. His students simply didn't have the knowledge of the specific language needed to succeed. Through experimentation and research, he discovered that for any subject there was a list of essential words, that, when mastered, unlocked a student's ability to progress in the subject. Lewis called this set of vocabulary the "Insider's Words". When he applied these "Insider's Words" the results were incredible. His students began to learn with ease. He was on his way to developing the landmark series of workbooks and applications to teach this "Insider's Language" to students around the world.

Environmental Systems and Societies Skills and Practice: Oxford IB Diploma Programme Hodder Education

Based on the 2014 DP Biology course, the 'IB Biology Revision Workbook' is intended for use by students at any stage of the two-year course. The workbook includes a wide variety of revision tasks covering topics of the Standard Level Core, Additional Higher Level and each of the four Options. The tasks include skills and applications taken directly from the guide, as well as activities aimed at consolidating learning. A section on examination

preparation and other useful tools is a part of this workbook. GCSE Biology Vocabulary Workbook Oxford University Press, USA
