The white man, leaning with both arms over the roof of the little house in the stern of the boat, said to the steersman-"We will pass the night in Arsat's clearing. It is late."The Malay only grunted, and went on looking fixedly at the river. The white man rested his chin on his crossed arms and gazed at the wake of the boat. At the end of the straight avenue of forests cut by the intense glitter of the river, the sun appeared unclouded and dazzling, poised low over the water that shone smoothly like a band of metal. The forests, sombre and dull,

stood motionless and silent on each side of the broad stream. At the foot of big, towering trees, trunkless nipa palms rose from the mud of the bank, in bunches of leaves enormous and heavy, that hung unstirring over the brown swirl of eddies. In the stillness of the air every tree, every leaf, every bough, every tendril of creeper and every petal of minute blossoms seemed to have been bewitched into an immobility perfect and final. Nothing moved on the river but the eight paddles that rose flashing regularly, dipped together with a single splash; while the steersman swept right and left with a periodic and sudden flourish of his blade describing a glinting semicircle above his head. The churned-up water frothed alongside with a confused murmur. And the white man's canoe, advancing upstream in the short-lived disturbance of its own making, seemed to enter the portals of a land from which the very memory of motion had forever departed. 20th Century World History Hodder Education

Many of us are alarmed by the accelerating rates of extinction of plants and animals. But how many of us know that human cultures are going extinct at an even more shocking rate? While biologists estimate that 18 percent of mammals and 11 percent of birds are threatened, and botanists anticipate the loss of 8 percent of flora, anthropologists predict that fully 50 percent of the 7,000 languages spoken around the world today will disappear within our lifetimes. And languages are merely the canaries in the coal mine: what of the knowledge, stories, songs, and ways of seeing encoded in these voices? In *The Wayfinders*, Wade Davis offers a gripping and enlightening account of this urgent crisis. He leads us on a fascinating tour through a handful of indigenous cultures, describing the worldviews they represent and reminding us of the encroaching danger to humankind's survival should they vanish.

The Wayfinders OUP Oxford Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library 's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany 's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote 's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers ' flight, Capote 's account is so detailed that the reader comes
