History for the IB Diploma Paper

1 The Move to Global War

Cambridge University Press

What are "essential questions," and

how do they differ from other

kinds of questions? What's so

great about them? Why should

you design and use essential

questions in your classroom?

Essential questions (EQs) help

target standards as you organize

curriculum content into coherent

units that yield focused and

thoughtful learning. In the

classroom, EQs are used to

stimulate students' discussions and

promote a deeper understanding

of the content. Whether you are

an Understanding by Design

(UbD) devotee or are searching

for ways to address

standards—local or Common Core

State Standards—in an engaging

way, Jay McTighe and Grant

Wiggins provide practical guidance

on how to design, initiate, and

embed inquiry-based teaching and

learning in your classroom.

Offering dozens of examples, the

authors explore the usefulness of

EQs in all K-12 content areas,

including skill-based areas such as

math, PE, language instruction,

and arts education. As an

important element of their

backward design approach to

designing curriculum, instruction,

and assessment, the authors \*Give

a comprehensive explanation of

why EQs are so important;

\*Explore seven defining

characteristics of EQs; \*Distinguish

between topical and overarching

questions and their uses; \*Outline

the rationale for using EQs as the

focal point in creating units of

study; and \*Show how to create

effective EQs, working from

sources including standards,

desired understandings, and

student misconceptions. Using

essential questions can be

challenging—for both teachers and

students—and this book provides

---

guidance through practical and proven processes, as well as suggested "response strategies" to encourage student engagement. Finally, you will learn how to create a culture of inquiry so that all members of the educational community—students, teachers, and administrators—benefit from the increased rigor and deepened understanding that emerge when essential questions become a guiding force for learners of all ages.
