You can save time and money on your college education. And you can have an unforgettable adventure along the way. Step-by-step, *College, Quicker* shows you how! On her first day of college, Kate Stephens had no government aid, no private scholarships, no significant savings—and no idea how she was going to pay for her education. But she graduated with zero debt in just two years. Her secret? Finding faster, less expensive ways to earn credits toward her degree. In *College, Quicker*, Stephens guides you to an affordable education, sharing practical tips on how to:

- Design your graduation plan. Are you still

in high school? Already in college? Get the lowdown on how colleges' transfer credit policies work and sample schedules to organize your plan.

- Choose the credit-earning options that work best for you. Are you a good test taker? Do you feel cooped up in classrooms? Basics, benefits, and bottom-line financial savings help you weigh the pros and cons of each option.
- Get started now! Hit the ground running with step-by-step instructions plus insider tips, common mistakes to avoid, and bonus opportunities.

History for the IB Diploma Paper 2 Independence Movements

(1800-2000) Disha Publications
Recognized by universities throughout the world, the International Baccalaureate (IB) is a college

entrance examination that students can take in any country. A school that adopts the IB curriculum ensures that its academics are brought up to international standards. Over 500 U.S. high schools currently participate in the International Baccalaureate program. As the IB concept gains ground with students, parents, and teachers in North America, Supertest tells two illuminating stories: how the IB program came to be and eventually reached the United

States, and how it came to be implemented at Mount Vernon High in Alexandria, VA. The book provides insight into how ideas first conceived by a small group of educators in Switzerland eventually helped improve a typical American public school.
