The 2013 IB HL Economics syllabus change introduced Paper 3, an essentially calculations-based assessment. THis development challenged teachers and students alike, as few Paper 3 practice resources have been available. THis is furthermore an area of the syllabus where, as in Mathematics, practice is fundamentally important in developing the skills and confidence for needed for success. Paul Hoang's latest publication therefore represents an invaluable resource in helping students to prepare for the examination challenges they face. For many candidates the mix of words, theory and numbers in Paper 3 questions can be overwhelming, if they have not developed easy familiarity throughout their course. Wlth clear layout and content that beautifully mirrors IB examination questions, this resource is the one we have all been waiting for. I absolutely recommend it as a 'must have' for all those who are preparing for the HL Economics examination. IT is a core resource invaluable to students and teachers alike. This volume offers critical analysis of national school reform policies intended to align with global agendas to promote educational quality and equity. By uniquely foregrounding the need for education reform to nurture child well-being alongside traditional measures of academic achievement, the book identifies common challenges across the Global North and South and extends insights provided by international student assessment data. Chapters offer a close analysis of reform practices in countries in Africa, Europe, Asia, and the Americas to consider cultural, social, political, and functional aspects which drive or inhibit the success of reform initiatives.

Providing excellent insights into holistic education for children and youth, this book highlights lessons to support global efforts in providing high-quality, equitable education for the whole child. Developing international knowledge and supplementing international data, this volume will be of interest to students, scholars, and researchers with an interest in education policy, as well as comparative and international education.
