An instant classic and eerily prescient cultural phenomenon, from "the patron saint of feminist dystopian fiction" (New York Times). Now an award-winning Hulu series starring Elizabeth Moss. In this multi-award-winning, bestselling novel, Margaret Atwood has created a stunning Orwellian vision of the near future. This is the story of Offred, one of the unfortunate "Handmaids" under the new social order who have only one purpose: to breed. In Gilead, where women are prohibited from holding jobs, reading, and forming friendships, Offred' s persistent memories of life in the "time before" and her will to survive are acts of rebellion. Provocative, startling, prophetic, and with Margaret Atwood' s devastating irony, wit, and acute perceptive powers in full force, The Handmaid' s Tale is at once a mordant satire and a dire warning.

play is widely studied because of its sharp critique of 19th century marriage norms, and its feminist tendencies. As part of our mission to publish great works of literary fiction and nonfiction, Sheba Blake Publishing Corp. is extremely dedicated to bringing to the forefront the amazing works of long dead and truly talented authors.
