A reflection on, and an extension of, the ideas laid out seven years ago in *The Coming Insurrection*. The Invisible Committee's *The Coming Insurrection* was a phenomenon, celebrated in some quarters and inveighed against in others, publicized in media that ranged from campus bulletin boards to Fox News. Seven years later, The Invisible Committee follows up their premonitory manifesto with a new book, *To Our Friends*. From The Invisible Committee: In 2007 we published *The Coming Insurrection* in France. It must be acknowledged that a number of assertions by the Invisible Committee have since been confirmed, starting with the first and most essential: the sensational return of the insurrectionary phenomenon. Who would have bet a kopeck, seven years ago, on the overthrow of Ben Ali or Mubarak through street action, on the revolt of young people in Quebec, on the political awakening of Brazil, on the fires set French-style in the English or Swedish banlieues, on the creation of an insurrectionary commune in the very heart of Istanbul, on a movement of plaza occupations in the United States, or on the rebellion that spread throughout Greece in December of 2008? During the seven years that separate *The Coming Insurrection* from *To Our Friends*, the agents of the Invisible Committee have continued to fight, to organize, to transport themselves to the four corners of the world, to wherever

the fires were lit, and to debate with comrades of every tendency and every country. Thus *To Our Friends* is written at the experiential level, in connection with that general movement. Its words issue from the turmoil and are addressed to those who still believe sufficiently in life to fight as a consequence. *To Our Friends* is a report on the state of the world and of the movement, a piece of writing that's essentially strategic and openly partisan. Its political ambition is immodest: to produce a shared understanding of the epoch, in spite of the extreme confusion of the present.

Because it is very simple. This manual is suitable for these models, that must have an engine 1.4 TDI 51, 55 or 59 kw : VW : Polo (2001 - 2009), Fox (2005 - 2010) SEAT : Ibiza (2003 - 2008) ; Cordoba (2002 - 2009) SKODA : Fabia (2003 - 2010) ; Roomster (2006 - 2010) It contains an accurate list of the tools you need, a detailed procedure to do your service, but also to check and replace your front brakes (pads and discs). You will see an example of the service book you should keep up to date, and the scheduled maintenance for all the tasks that have to be done to keep your car in the best conditions. The main goal is to save money. For each maintenance, it will cost you from 35e to 50e maximum, while it costs more than 200e at your car dealer. You save at least 150e per service. More than money, you save time here ! We assure you that after the first learning, you will not need more than 30 minutes! Better than go to the car dealer and wait for two hours. The Child's Play Maintenance manuals have the goal to allow anyone to do its car service himself. We think that your mechanic charge far too much for what it is, and we want you to avoid this useless expense. Each manual is specific to a single model (location of the parts are different, as the way to replace them)

This book examines the evolution of the phenomenon and explores the genesis of overtourism and the system dynamics underlining it. The 'overtourism' phenomenon is defined as the excessive growth of visitors leading to overcrowding and the consequential suffering of residents, due to temporary and often seasonal tourism peaks, that lead to permanent changes in lifestyles, amenities and well-being. Enormous tensions in overtourism affected destinations have driven the intensification of policy making and scholarly attention toward seeking antidotes to an issue that is considered paradoxical and problematic.

Moving beyond the 'top 10 things you can do about overtourism', this book examines the evolution of the phenomenon and explores the genesis of overtourism as well as the system dynamics underpinning it. With a rigorous scientific approach, the book uses systems-thinking and contemporary paradigms around sustainable development, resilience planning and degrowth; while considering global economic, socio-political, environmental discourses. Researchers, analysts, policy makers and industry stakeholders working within tourism as well as those within the private sector, community groups, civil society groups and NGOs
