Total Training for Young Champions BPP Publishing

The problems related to the process of industrialisation such as biodiversity depletion, climate change and a worsening of health and living conditions, especially but not only in developing countries, intensify. Therefore, there is an increasing need to search for integrated solutions to make development more sustainable. The United Nations has acknowledged the problem and approved the " 2030 Agenda for Sustainable Development " . On 1st January 2016, the 17 Sustainable Development Goals (SDGs) of the Agenda officially came into force.

These goals cover the three dimensions of sustainable development: economic growth, social inclusion and environmental protection. The Encyclopedia of the UN Sustainable Development Goals comprehensively addresses the SDGs in an integrated way. It encompasses 17 volumes, each devoted to one of the 17 SDGs. This volume addresses SDG 2, namely "End hunger, achieve food security and improved nutrition and promote sustainable agriculture" and contains the description of a range of related terms, to allow for a better understanding and foster knowledge. Our planet produces enough food to feed everyone. Malnutrition and hunger are the result of inappropriate food production processes, bad governance and injustice. SDG 2 seeks to guarantee quality and nutritious food to ensure healthy life by adopting a holistic approach that involves various actions targeting different actors, technologies, policies and programs. These initiatives have to face challenges coming from extensive environmental degradation, loss of biodiversity and the interrelated effects of climate change. Concretely, the defined targets are: End hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round End all forms of malnutrition, including achieving the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and

older persons Double the agricultural productivity and incomes of small-scale food producers, in particular women, indigenous peoples, family farmers, pastoralists and fishers, including through secure and equal access to land, other productive resources and inputs, knowledge, financial services, markets and opportunities for value addition and non-farm employment Ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality Maintain the genetic diversity of seeds, cultivated plants and farmed and domesticated animals and their related wild species, including through soundly managed and diversified seed and plant banks at the national, regional and international levels, and promote access to and fair and equitable sharing of benefits arising from the utilization of genetic resources and associated traditional knowledge, as internationally agreed Increase investment, including through enhanced international cooperation, in rural infrastructure, agricultural research and extension services, technology development and plant and livestock gene banks in order to enhance agricultural productive capacity in developing countries, in particular least developed countries Correct and prevent trade restrictions and distortions in world agricultural markets, including through the parallel elimination of all forms of agricultural export subsidies and all export measures with equivalent effect, in accordance with the mandate of the Doha Development Round Adopt measures to ensure the proper functioning of food commodity markets and their derivatives and facilitate timely access to market information, including on food reserves, in order to help limit extreme food price volatility Editorial Board Datu Buyung Agusdinata, Mohammad Sadegh Allahyari, Usama Awan, Nerise Johnson, Paschal Arsein Mugabe, Vincent Onguso Oeba, Tony Wall/div

Top 10 Tallinn Orca Book Publishers

Fourteen-year-old Rooney loves hip-hop almost as much as she loves her grandmother. She cannot wait to compete in her school's dance competition. But as her grandmother's health deteriorates, Rooney becomes more and more reluctant to visit her in the care home. These feelings of guilt and frustration cause Rooney to mess things up with her hip-hop dance partner and best friend, Kira. But while doing some volunteer hours in the hospital geriatric ward, Rooney meets an active senior recovering from a bad fall. Their shared love of dance and the woman's zest for life help Rooney face her fears, make amends with Kira and reconnect with Gram before it's too late.

This book consolidates the results of a study conducted in four DMCs--Azerbaijan, Fiji Islands, Marshall Islands, and Sri Lanka. It summarizes the major findings of the diagnostic study on available accounting and auditing support contained in the four country reports and provides recommendations and an action plan to address identified weaknesses.

Audit and Assurance Pearson Education

There's something in the earth deep below Elise Kavanagh's territory. A shadow is falling upon local demons to devour their flesh and harvest their souls. And it's coming for Elise next. The Union has an easy way out. They want to send Elise into hiding again with her former partner, James Faulkner. All she has to do is surrender the territory and trust that they can protect the ethereal ruins, the dark gate, and the city she's come to know as home. Greater powers have other plans for Elise and her fabled power as Godslayer—plans that mean surrendering her life and blood to the most powerful demon alive. But if she descends, there's no turning back. Once she gazes into the abyss, it will gaze back into her...and Elise will be damned forever.

ACCA Financial Reporting FIA Foundations in Management Accounting FMA (ACCA F2) Foundations in Accountancy (FIA) awards are entry-level, core-skill focused qualifications from ACCA. This report documents Sri Lanka's financial management systems covering budgeting, funds flow, accounting and reporting, and auditing systems. It provides insights into Sri Lanka's internal control systems, staffing resource capacity, and information technology structure. The intent is to give project teams and consultants a better understanding of the country's financial management systems to improve project preparation. Find out how high-quality financial management assessments support projects by identifying key risks and enabling the implementation of appropriate actions and reforms to mitigate those risks.

Bratva Vow Pearson Education India

"Fundamentals of Financial Accounting responds by using carefully chosen focus companies that students recognize and engage with in their everyday lives. From tech start-ups to some of the world's most familiar trademark brands, each chapter opens with an engaging scenario or story using a familiar company. The same focus company, such as Walmart, Cedar Fair, American Eagle, National Beverage, Under Armour, or General Mills, is used throughout the entire chapter so that students can see how the concepts and calculations apply to a real-world company they are already familiar with"--

Pygmy Kitabu Springer
