Techniques and Principles in Language Teaching Houghton Mifflin Harcourt
Oral history is a particularly useful way to capture ordinary people's lived experiences. This innovative book introduces the full array of oral history research methods and invites students and qualitative researchers to try them out in their own work. Using choreography as an organizing metaphor, the author presents creative strategies for collecting, representing, analyzing, and interpreting oral history data. Instructive exercises and activities help readers develop specific skills, such as nonparticipant observation, interviewing, and writing, with a special section on creating found data poems from interview transcripts. Also covered are uses of journals, court transcripts, and other documents; Internet resources, such as social networking sites; and photography and video. Emphasizing a social justice perspective, the book includes excerpts of oral histories from 9/11 and Hurricane Katrina, among other detailed case examples.

Webster's II New College Dictionary Guilford Press

A newly updated edition of the dictionary features more than 200,000 definitions, as well as revised charts and tables, proofreaders' marks, synonym lists, word histories, and context examples.

Oral History for the Qualitative Researcher

This book provides a practical overview of the most important methods in the field. Readers are drawn into classrooms where various teaching methods and approaches are being used. They are encouraged to reflect on their own beliefs and to develop their own approach to language teaching. - Publisher.
