Icom 7300, KAT500 and KPA500

The KAT-500 manual recommends using 25W or more for tuning, to get the best match. If you press the TUNE button on the radio, I think both the IC-7300 and the IC-7600 put out only a 10W carrier. To get 25W, you need to do something like selecting RTTY/PSK mode, and setting the power output level for 25W or more.
