If we live according to the gospel, we're going to make waves. Why? Because the way of Christ is countercultural. It doesn't go with the flow, compromise on truth, or stay silent in the face of injustice--so neither can we. No matter how young or old we are, or how much or how little influence we think we have, God calls us to boldly engage our upside-down culture through the lens of his truth. With powerful examples from Scripture and stories from teens today and through the centuries, Sara Barratt equips teens to live with a biblical worldview, approach today's hot-button issues with godly wisdom, and influence their generation for the glory of God. Tackling tough topics like sexuality, addiction, identity, media, and much more, Sara offers practical ways to stay rooted in God's truth while engaging culture with the redemptive story of the gospel--no matter the cost.

The Gospel of Luke Baker Books

This book discusses the complex ways in which the novel offers a vibrant arena for critically engaging with our contemporary world and scrutinises the genre's political, ethical, and aesthetic value. Far-reaching cultural, political, and technological changes during the past two decades have created new contexts for the novel, which have yet to be accounted for in literary studies. Addressing the need for fresh transdisciplinary approaches that explore these developments, the book focuses on the multifaceted responses of the novel to key global challenges, including migration and cosmopolitanism, posthumanism and ecosickness, human and animal rights, affect and biopolitics, human cognition and anxieties of inattention, and the transculturality of terror. By doing so, it testifies to the ongoing cultural relevance of the genre. Lastly, it examines a range of 21st-century Anglophone novels to encourage new critical discourses in literary studies.

There has been a terrible mistake. Instead of having thirty classrooms side by side, Wayside School is thirty storeys high! (The builder said he was sorry.) Perhaps that's why all sorts of strange and unusual things keep happening - especially in Mrs Jewls's classroom on the very top floor. There's the terrifying Mrs Gorf, who gets an unusually fruity comeuppance; Terrible Todd, who always gets sent home early; and Mauricia, who has a strange ice-cream addiction. Meanwhile, John can only read upside down, and Leslie is determined to sell her own toes. From top to bottom, Wayside is packed with quirky and hilarious characters who are all brought to life in this new edition with delightful illustrations by Aleksei Bitskoff throughout. This is an unmissable, irrepressible story of mixed-up mayhem from Louis Sachar, the bestselling author of *Holes*.

Peace Education and Religion: Perspectives, Pedagogy, Policies Crossway

In *Strategic Maneuvering for Political Change*, the author analyzes five political columns written before 2011 by Al Aswany, a prominent Egyptian novelist, using the lens of the extended pragma-dialectical theory of argumentation. What these texts have in common is the use of narrative, fictional and semi-literary techniques to strategically maneuver in supporting the feasibility of political change. It is a contribution to explain how an anti-regime writer paved the way to the Arab Spring in Egypt, and thus goes against a common opinion that the Arab Spring in Egypt was fortuitous or a wholly social-media-based movement. This monograph is an attempt to help argumentation theorists, linguists, analysts

of narratives, and political scientists better understand and evaluate how fiction and narration can be effective means of persuasion in the domain of political communication. It therefore reconsiders the non-straightforward and artistic variants of the language of politics.

Whether formally incorporated into curriculum and teacher training or informally integrated in contexts such as state or NGO initiatives dealing with resolving social, ethnic, and religious conflicts, peace education is increasingly recognized as a critical component in addressing violence in contemporary plural societies. Peace education can constructively undertake a reframing of historical narratives while inspiring practical community activities. An important, but insufficiently studied and theorized aspect of peace education is the role of religion. The challenge to peace education in today's globalized, diverse, mobile, and religiously pluralistic world is to be able to take both complex global and distinctive local situations into account. The contributions to this integrative collection of essays provide exactly these local and global perspectives on the state of peace education and its relationship to religion across pedagogy and curriculum, state policies, and activism within societies on the front lines of resolving internal conflicts, whether historical or recent, that often reflect aspects of religious identities.
