Identity Globalization Culture And Psychological Functioning
With regard to risks, the present focus is on cultural identity confusion and mental health, and the emergence of cultural gaps within families between adolescents and their parents or elders. In regard to opportunities, the focus is on youth civic involvement.
The Psychology of Globalization - Jeffrey Arnett

Globalization has made exposure to multiple cultures not only possible, but often necessary and unavoidable. This article focuses on how people react and adapt to increasing globalization and multiculturalism. We posit that reactions to multiculturalism and intercultural contact are not universal and are themselves shaped by cultural experiences. That is, culture provides a frame of reference for reconciling and

negotiating the inflow of foreign cultures and peoples.

Globalization and Cultural Identity | SpringerLink psychological consequences of globalization are described, with a focus on identity issues. Specifically, it is argued that most people worldwide now develop a bicultural identity that combines their local identity with an identity linked to the global culture; that identity confusion may be increasing among young people in non-Western cultures as a

A simple way to understand how globalization has influenced human behaviour is to look at how some cultures values have changed over time. It is important to note that globalization is often referred to as Westernization, as the result is most frequently cultures adapting more Western values. In the first post in this globalization series, we are going to look at how the rise in Western (i.e. individualistic) values in Japan as a result of globalization might be having an effect on their ...
