“ My dear boy, please don ’ t put a label on me – don ’ t make me a category before you get to know me! ” John Irving ’ s new novel is a glorious ode to sexual difference, a poignant story of a life that no reader will be able to forget, a book that no one else could have written. Told with the panache and assurance of a master storyteller, In One Person takes the reader along a dizzying path: from a private school in Vermont in the 1950s to the gay bars of Madrid ’ s Chueca district, from the Vienna State Opera to the wrestling mat at the New York Athletic Club. It takes in the ways that cross-dressing passes from one generation to the next in a family, the trouble with amateur performances of Ibsen, and what happens if you fall in love at first sight while reading Madame Bovary on a troop transport ship, in the middle of an Atlantic storm. For the sheer pleasure of the tale, there is no writer alive as entertaining and enthralling as John Irving at his best. But this is also a heartfelt, intimate book about one person, a novelist named William Francis Dean. By his side as he tells his own story, we follow Billy on a fifty-year journey toward himself, meeting some uniquely unconventional characters along the way. For all his long and short relationships with both men and women, Billy remains somehow alone, never quite able to fit into society ’ s neat categories. And as Billy searches for the truth about himself, In One Person grows into an unforgettable call for compassion in a world marked by failures of love and failures of understanding. Utterly contemporary and topical in its themes, In One Person is one of John Irving ’ s most political novels. It is a book that grapples with the mysteries of identity and the multiple tragedies of the AIDS epidemic, a book about everything that has changed in our sexual life

over the last fifty years and everything that still needs to. It's also one of Irving's most sincere and human novels, a book imbued on every page with a spirit of openness that expands and challenges the reader's world. A brand new story in a grand old tradition, In One Person stands out as one of John Irving's finest works – and as such, one of the best and most important American books of the last four decades.

New York Times Bestseller “A winning, nuanced portrait. . . . It seems unlikely we'll ever have a better record of a remarkable American life.” —USA Today "There are many reasons to be grateful for The Mockingbird Next Door....A zesty account of two women living on their own terms yet always guided by the strong moral compass instilled in them by their father.... It is also an atmospheric tale of changing small-town America; of an unlikely, intergenerational friendship between the young author and her elderly subjects; of journalistic integrity; and of grace and fortitude.... The world [Mills] depicts is sadly gone, but—lucky for us—she caught it just in time.”—Washington Post To Kill a Mockingbird is one of the best loved novels of the twentieth century. Yet for the last fifty years, the novel's celebrated author, Harper Lee, known to her friends as Nelle, has said almost nothing on the record. But in 2001, Nelle and her sister, Alice Finch Lee, opened their door to Chicago Tribune journalist Marja Mills. It was the beginning of a long conversation—and a wonderful friendship. Mills was given a rare opportunity to know Nelle, to be a part of the Lees' life in Alabama, and to hear them reflect on their upbringing, their corner of the Deep South, and how To Kill a Mockingbird affected their lives.
