In Search of History Pearson South Africa

After describing the functions of the PC and the role of computers in local and global networks, the authors explain the fundamentals of data management, as well as the support of firms' functions and processes through information processing. The concepts utilized are deployed in a multitude of modern and integrated application systems in manufacturing and service industries. These application examples make up the core of the book. Many application examples illustrate the methodologies addressed.

Tourism and Hospitality Studies Oxford University Press - Children

Portfolio Decision Analysis: Improved Methods for Resource Allocation provides an extensive, up-to-date coverage of decision analytic methods which help firms and public organizations allocate resources to 'lumpy' investment opportunities while explicitly recognizing relevant financial and non-financial evaluation criteria and the presence of alternative investment opportunities. In particular, it discusses the evolution of these methods, presents new methodological advances and illustrates their use across several application domains. The book offers a many-faceted treatment of portfolio decision analysis (PDA). Among other things, it (i) synthesizes the state-of-play in PDA, (ii) describes novel methodologies, (iii) fosters the deployment of these methodologies, and (iv) contributes to the strengthening of research on PDA. Portfolio problems are widely regarded as the single most important application context of decision analysis, and, with its extensive and unique coverage of these problems, this book is a much-needed addition to the literature. The book also presents innovative treatments of new methodological approaches and their uses in applications. The intended audience consists of practitioners and researchers who wish to gain a good understanding of portfolio decision analysis and insights into how PDA methods can be leveraged in different application contexts. The book can also be employed in courses at the post-graduate level.

X-Kit Literature Series: FET Great Gatsby Juta and Company Ltd

This newest edition of David Waugh and Tony Bushell's Key Geography provides support for the 2014 KS3 Programme of Study, with a focus on developing key geographical skills and techniques to prepare students for Key Stage 4. Focusing on the key issues that have divided or galvanised geographers in their work, this text is an introduction to the fundamental debates that animate geography today.

The Tempest Study Guide Springer Science & Business Media

A critical and accessible text, this book provides a foundation for translanguaging theory and practice with educating emergent bilingual students. The product of the internationally renowned and trailblazing City University of New York-New York State Initiative on Emergent Bilinguals (CUNY-NYSIEB), this book draws on a common vision of translanguaging to present different perspectives of its practice and outcomes in real schools. It tells the story of the collaborative project's positive impact on instruction and assessment in different contexts, and explores the potential for transformation in teacher education. Acknowledging oppressive traditions and obstacles facing language minoritized students, this book provides a pathway for combatting racism, monolingualism, classism and colonialism in the classroom and offers narratives, strategies and pedagogical practices to liberate and engage emergent bilingual students. This book is an essential text for all teacher educators, researchers, scholars, and students in TESOL and bilingual education, as well as educators working with language minoritized students.

35 reproducible exercises in each guide reinforce basic reading and comprehension skills as they teach higher order critical thinking skills and literary appreciation. Teaching suggestions, background notes, act-by-act summaries, and answer keys included.

Accounting, Grade 10 Pearson South Africa

This informative book is a thoroughly revised and updated edition of the classic introduction to urbanization in developing areas. Using case studies of cities drawn from around the world, including Bangkok, Delhi, Manila, Mexico City, Singapore and cities in Zimbabwe, this key text confronts three main questions: Is there still a Third World, does it have a common urban form, and what is the relationship between urbanization and sustainability? The text analyzes: the dimension of urban growth in the third world historical perspectives on urban growth urban population growth employment and incomes in the city basic needs and human rights environmental problems in third world cities planning and management of cities. Containing a wealth of student-friendly features including boxed case-studies, discussion questions and guides for further reading, this text provides an invaluable introduction to

the issues and processes of the city in the Third World. Containing a greater depth of content and referencing, and with new chapters and subjects covered, this new second edition utilizes its larger format to make extensive use of illustrations, diagrams, global case studies, and further reading. Overall, these changes have contributed to this book's continuance as an extremely accessible student text.

David Knighton's best-selling book looks at the wide range of forms developed by natural rivers and the processes responsible for that development. The book combines empirical and theoretical approaches, and provides a critical assessment of the many schools of thought which have emerged for dealing with adjustment in the fluvial system. It is fully illustrated throughout by a superb range of figures, photographs and tables. Starting with the network scale, the book examines the interaction of hillslopes, drainage networks and channels, and goes on to considerations of catchment hydrology and catchment denudation. Fluvial processes are analysed in detail, from the mechanics of flow to sediment transport and deposition. Detailing the major components of river channels, the book examines the nature of river adjustment, particularly with respect to equilibrium concepts, and concludes with a look at channel changes through time, affected by flood discharges, climatic change and human activities.

A Drama in Two Acts Oxford Paperbacks

A farmhouse is being reproduced a dozen times, with slight variations, throughout a valley. Three small graves have been dug in the front garden, the middle one lying empty. A woman in a wheelchair sorts through boxes while her husband clambers around the old demolished buildings, wondering where the animals have gone. A young woman - called 'the barren one' behind her back - dreams of love, while an ageing headmaster contemplates the end of his life. At the entrance to the long dirt driveway, a car appears and pauses - pointed towards the house like a silver bullet, ticking with heat. So begins *The Dream House*, Craig Higginson's riveting and unforgettable novel set in the Midlands of KwaZulu-Natal. Written with dark wit, a stark poetic style and extraordinary tenderness, this is a story about the state of a nation and a deep meditation on memory, ageing, meaning, family, love and loss. This updated 2016 edition contains new content, with Craig Higginson exploring the background to *The Dream House*, his varied experiences in a farmhouse in KwaZulu-Natal and the subsequent and poignant motivations for this moving novel.

If you give a cat a cupcake, he'll ask for some sprinkles to go with it. When you give him the sprinkles, he might spill some on the floor. Cleaning up will make him hot, so you'll give him a bathing suit . . . and that's just the beginning! The lovable cat who first appeared in *If You Give a Pig a Party* now has his very own book! Written in the tradition of the bestselling *If You Give a Mouse a Cookie*, Laura Numeroff and Felicia Bond's newest story will show everyone that Cat is where it's at!
