As the demand for English language education grows in Asia, there has been a parallel growth in the development and implementation of standardized tests at the local level. Offering much-needed context on locally produced tests in Asia, contributors examine emerging models for English language assessment and the impact these large-scale tests have on the teaching and learning of English. Chapters address the following well-known and developing high-stakes tests in different regions across Asia: the GEPT, the TEPS, the VSTEP, the CET, the EIKEN and TEAP, and the ELPA. Brought together by world-

renowned testing assessment scholar Cyril Weir and the Language Training and Testing Center (LTTC), one of Asia's leading testing institutions based in Taiwan, this volume is a useful reference for evaluating, developing, and validating local tests of English and their societal impact. Comprehensive and research-based, chapters cover historic backgrounds, sociocultural contexts, test quality, international standing, and future considerations. Ideal for graduate students, researchers, and scholars in language assessment, TESOL/TEFL, and applied linguistics, this book will also

Louis Zamperini was an

Driven to the limits of
